PSI PROJECT MANAGEMENT, INC.

CAPM® Student Handbook

Navigating your Learning Management System

Your step-by-step guide to the PSIPM learning platform — from your first login through the Student Workbook, Study Hub, eBook, and full-length practice exams.

CAPM® Exam Prep

PSIPM. TRAINING PROJECT MANAGERS

CAPM® · STUDENT HANDBOOK

Start here

Welcome to your CAPM® exam-prep course. This guide walks you through the PSIPM Learning Management System (LMS) one step at a time — from your very first login all the way through your final practice exam. No prior experience with the system is assumed.

LMS SITE **https://capm-psipm.talentlms.com/plus/**

Your journey, at a glance

Sign in › Set up › Add courses › Learn › Practice › Get help

Follow the steps

The guide is numbered 1–27 in the order you'll do things. Work through it top to bottom the first time.

Match the pictures

Every step shows a screenshot of what you'll actually see, so you always know you're in the right place.

Watch for callouts

Gold *Tips*, blue *Notes*, and orange *Important* boxes flag what's worth remembering.

WHAT'S INSIDE

Contents

01 **Getting started** SET-UP — STEPS 1–4
Signing in for the first time and making sure you're in the right place.

02 **Set up your home screen** SET-UP — STEPS 5–7
Pulling your CAPM® materials onto your home screen from the catalog.

03 **How any course works** EVERY COURSE — STEPS 8–9
The panel you'll see whenever you open a course.

04 **In class: following the live lessons** IN CLASS — STEPS 10–13
The materials you'll use live with your instructor during each session.

05 **The Study Hub (your 34-day plan)** SELF-PACED — STEPS 14–17
Your guided, self-paced study after class — two parts that run as one continuous plan.

06 **The (eBook) Fundamentals of Project Management** SELF-PACED — STEP 18
A self-paced reference organized by topic, not by day — read whenever a subject needs a closer look.

07 **Practice exams** SELF-PACED — STEPS 19–20
Full-length, exam-style practice — once both Study Hub parts are complete.

08 **The Learning Playground** ANYTIME — STEPS 21–24
An AI-powered study space with four modes — a great resource whenever you want extra, personalized practice.

09 **Messages and support** SUPPORT — STEPS 25–27
How to reach your instructor and manage your account inside the LMS.

YOUR ROADMAP

Your courses & how the class works

Your CAPM® materials fall into two groups: what you use **live in class** with your instructor, and what you work through **on your own**. Here's the whole picture on one page.

BEFORE YOUR FIRST CLASS

Read this handbook

You're doing it now — it walks you through everything you need to navigate the LMS.

Watch the student orientation

A short TalentLMS orientation video is linked in your welcome email.

Save your class link

Live sessions run on Zoom or Teams — the meeting link is in your welcome email.

In class

WITH YOUR INSTRUCTOR

Student Workbook
Combined Fundamentals + CAPM® content with ruled note lines — keep it open to follow along and write notes.

Fundamentals Slides / Slides Part II
The lesson slide decks your instructor presents from, viewable right in the LMS.

CAPM® In-Course Quizzes
Taken in class after each applicable lesson — or before the next lesson if time runs short.

On your own

SELF-PACED, IN THIS ORDER

1. **Study Hub — Part 1 → 2**
   A 34-day plan (9 days + 25 days), worked strictly in order.
2. **(eBook) Fundamentals of Project Management**
   A self-paced reference organized by topic — read anytime.
3. **Practice Exams 1 & 2**
   Once you've finished both Study Hub parts.
4. **Learning Playground**
   AI-powered practice — use anytime, in any of its four modes.

SECTION 01 SET-UP

Getting started

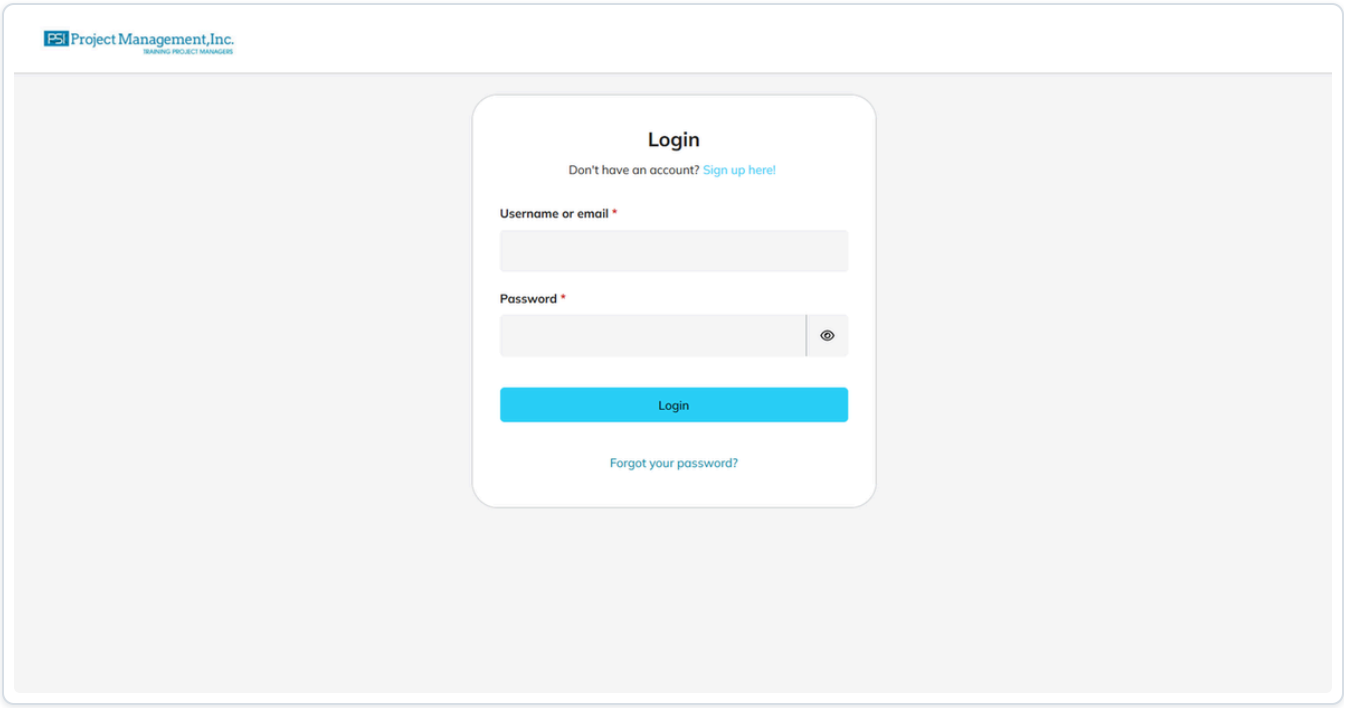

Signing in for the first time and making sure you're in the right place.

1 Sign in to the LMS

DO THIS Go to https://capm-psipm.talentlms.com/plus/, enter your username or email and password, then select Login.

Open the LMS site at https://capm-psipm.talentlms.com/plus/ and enter your username or email and password, then select the blue Login button. Your sign-in details come from your enrollment confirmation email.

If you've forgotten your password, select "Forgot your password?" and follow the instructions sent to your email. The eye icon at the end of the password box reveals what you've typed, so you can check it before signing in. Don't have an account yet? Select "Sign up here!" on the same screen.

The PSIPM LMS login screen.

WHAT TO LOOK FOR

- **Username or email** —Whichever one you registered with will work.
- **Show / hide password (eye icon)** —Reveals your password so you can double-check it.
- **Sign up here!** —For students who haven't created an account yet.
- **Forgot your password?** —Sends a reset link to your email.

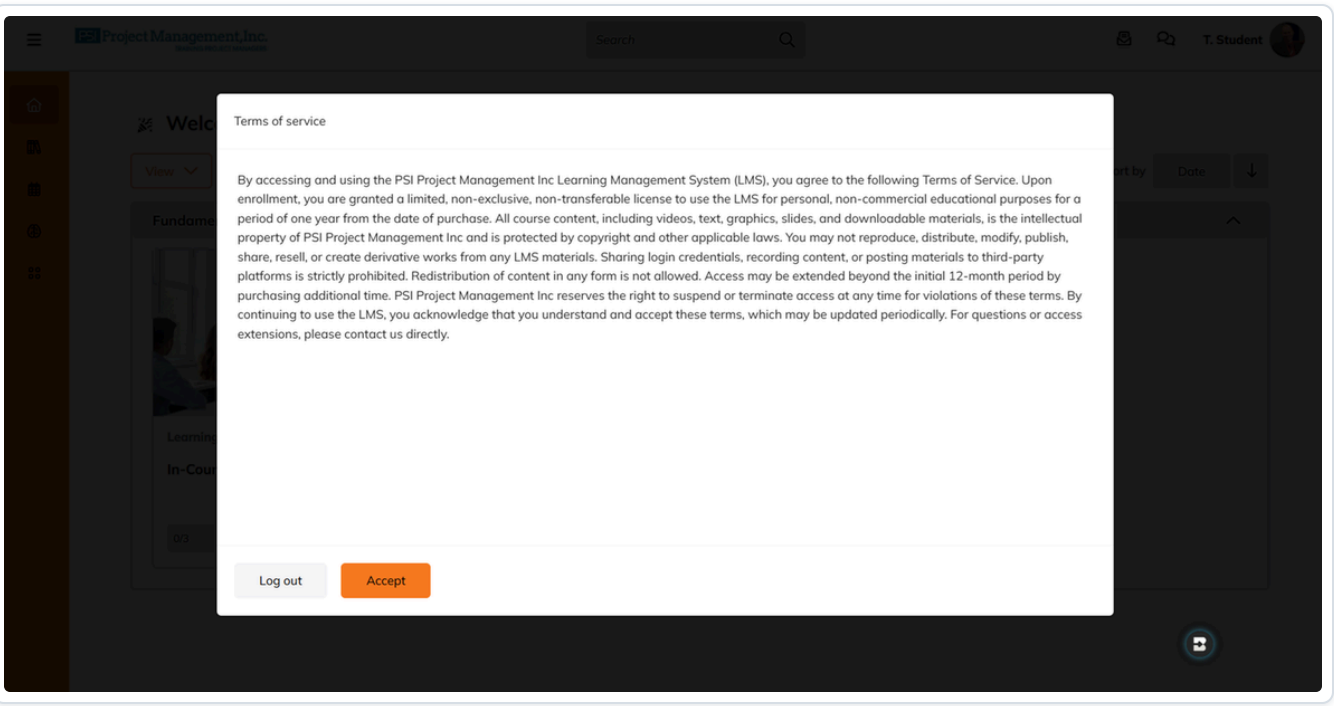

TIP Bookmark https://capm-psipm.talentlms.com/plus/ in your browser so getting back in is just one click.

2 Accept the Terms of Service

DO THIS Read the terms, then select Accept to continue.

The first time you sign in, a Terms of Service window appears. It explains how long your access lasts and reminds you that the course materials are for your own personal study. This is the same window every PSIPM student sees, regardless of program.

You need to select Accept to reach your courses. Choosing Log out simply closes the LMS without continuing.

The Terms of Service window shown on first sign-in — the same for every PSIPM course.

WHAT TO LOOK FOR

- **Accept** —Agrees to the terms and takes you to your home screen.
- **Log out** —Closes the LMS without continuing.

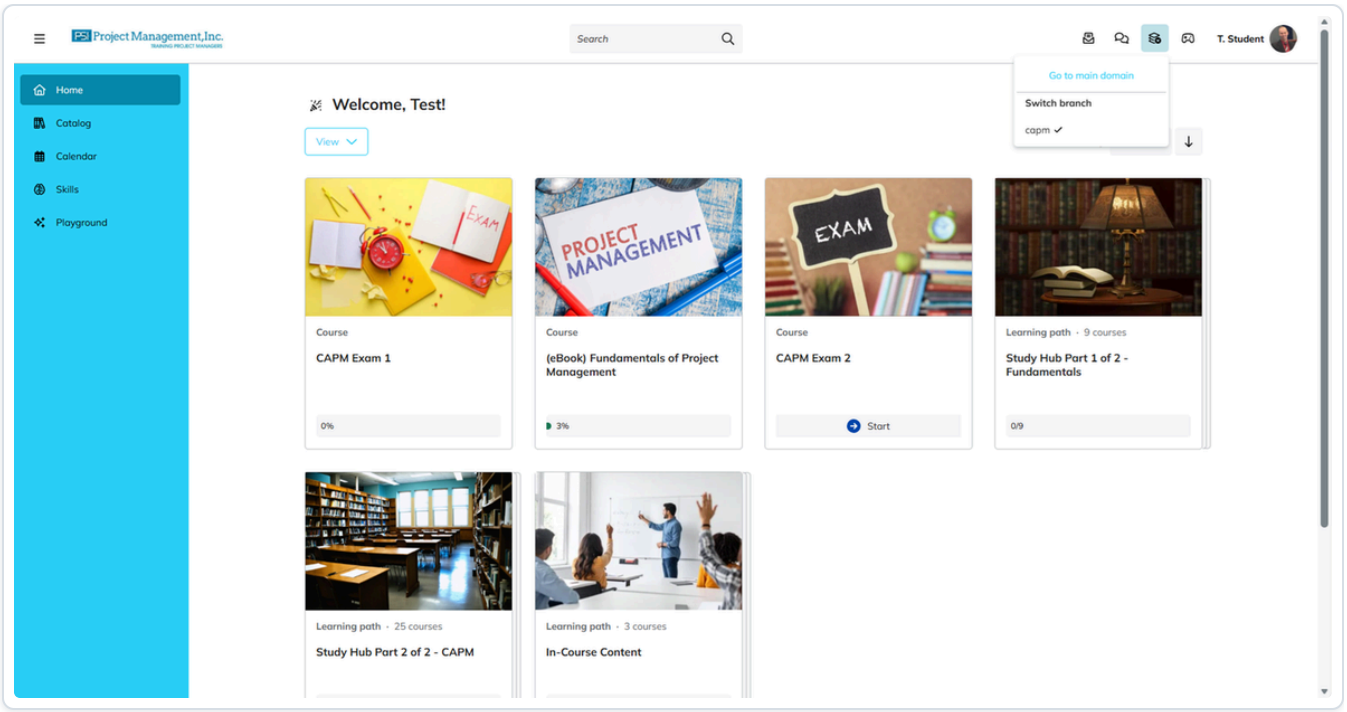

NOTE Your access runs for one year from your purchase date. If you need more time, contact PSIPM directly to extend it.

3 Make sure you're on capm

DO THIS Select the stacked-layers icon at the top right and confirm capm has the checkmark.

PSIPM runs more than one program. The stacked-layers icon in the top-right corner lists only the branches assigned to your account, plus "Go to main domain" to return to the top-level PSIPM catalog.

Make sure capm is the branch with the checkmark. If you were ever moved to a different branch by mistake, this is the first place to check.

The branch switcher, confirming the capm branch is selected.

WHAT TO LOOK FOR

- **Switch branch** —Lists only the programs assigned to your account.
- **capm ✓** —Make sure this is the one selected.
- **Go to main domain** —Returns you to the top-level PSIPM catalog.

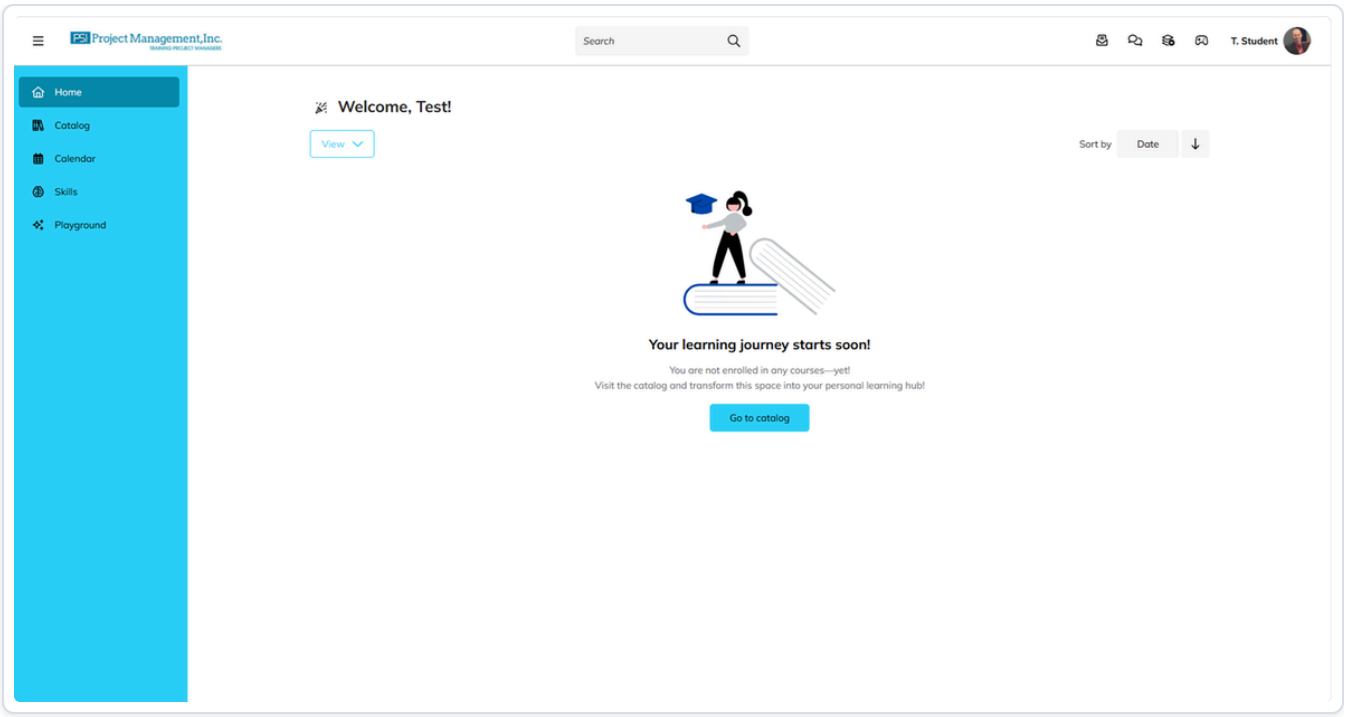

IMPORTANT If your courses ever look wrong or seem to be missing, check this first — you may be viewing the wrong branch.

4 Your home screen (before adding courses)

DO THIS Nothing to do yet — just get familiar with the layout.

When you first arrive, your home screen shows “Your learning journey starts soon!” with a note that you’re not enrolled in any courses yet. That’s completely normal — you simply haven’t added your courses to your home screen yet. Select “Go to catalog” (or use the next step) to fix that.

The teal bar down the left side is your main menu, with Home, Catalog, Calendar, Skills, and Playground. Your name and profile picture sit in the top-right corner.

A fresh home screen before any courses are added.

WHAT TO LOOK FOR

- **Left menu (teal bar)** —Your main navigation — Home, Catalog, Calendar, Skills, and Playground.
- **"Your learning journey starts soon!"** —Expected on a brand-new account; you'll fix it in the next section.
- **Go to catalog** —Jumps straight to the course catalog.

TIP Hover your mouse over any icon in the left menu to see a label telling you what it does.

SECTION 02 SET-UP

Set up your home screen

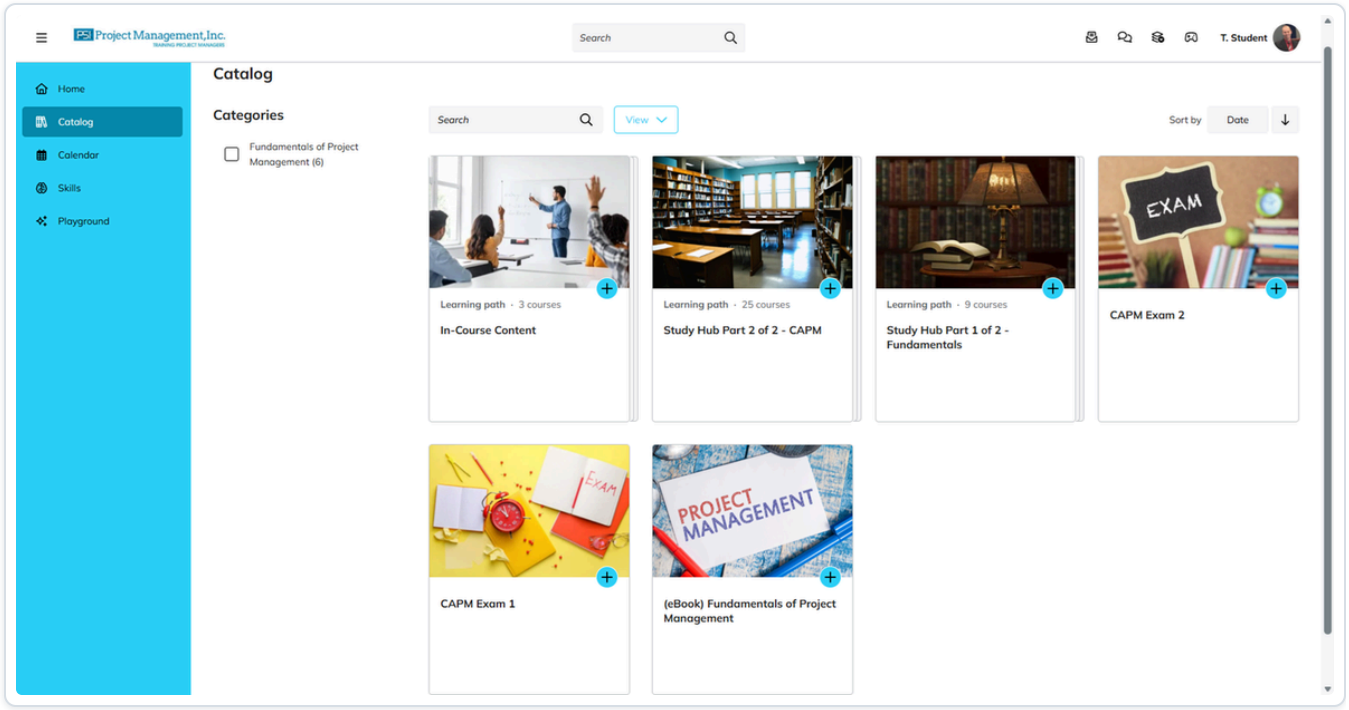

Pulling your CAPM® materials onto your home screen from the catalog.

5 Open the course Catalog

DO THIS Select the library (books) icon in the left menu to open the Catalog.

The Catalog is where all six of your CAPM® materials live, filed under one category: Fundamentals of Project Management. Select the library icon in the left menu to see them.

You'll see a card for each item — In-Course Content, Study Hub Part 1 of 2 - Fundamentals, Study Hub Part 2 of 2 - CAPM, CAPM® Exam 1, CAPM® Exam 2, and the (eBook) Fundamentals of Project Management.

The Catalog, showing all six CAPM® items with their + buttons.

WHAT TO LOOK FOR

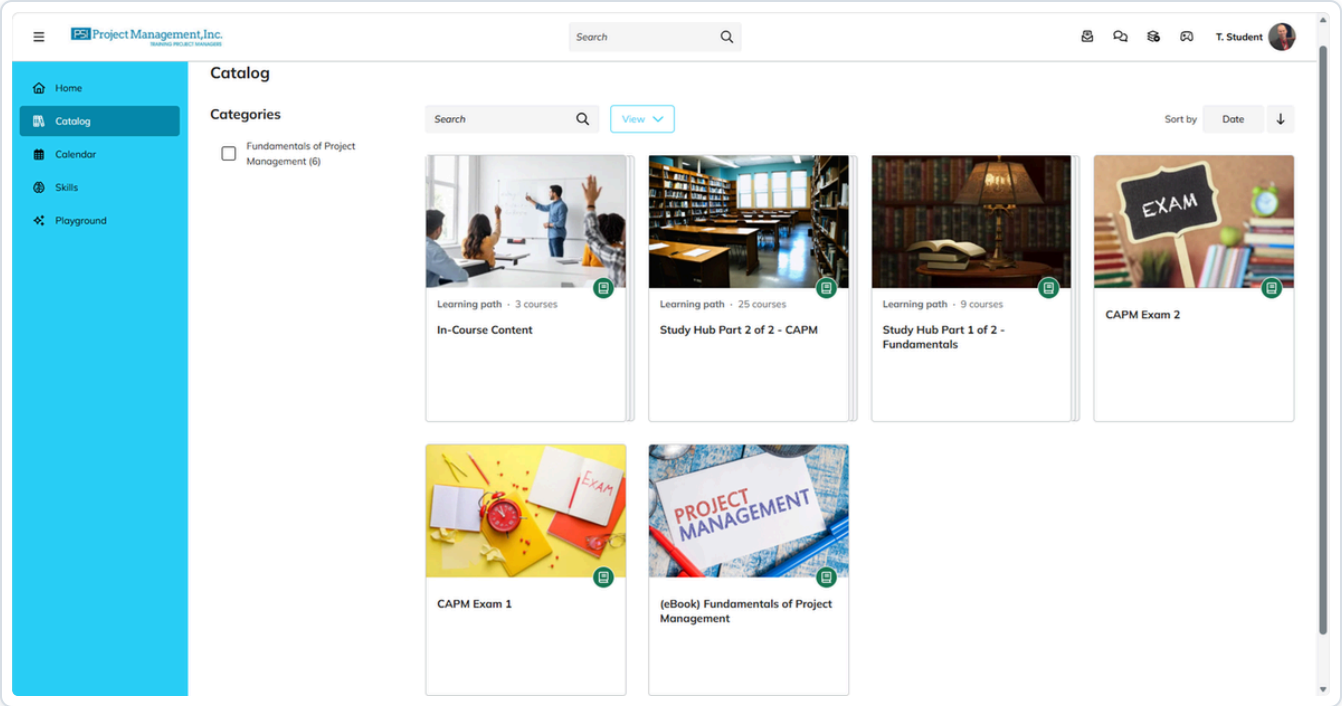

- **Library icon (left menu)** —Opens the Catalog.
- **Fundamentals of Project Management category** —Filters the catalog to your program's items.
- **The blue + button** —Adds that item to your home screen.

6 Add each item to your home screen

DO THIS Select the + on every card — all six items.

Select the + on each card to add it to your home screen. Once added, the icon on that card changes to a small document icon, confirming it's been added.

Add all six: In-Course Content, both Study Hub parts, both CAPM® Exams, and the eBook — so your full course is available in one place.

The Catalog after adding every item — notice the icon change confirming each was added.

WHAT TO LOOK FOR

- **+ (before adding)** —Adds the item to your home screen.
- **Document icon (after adding)** —Confirms that item is already on your home screen.

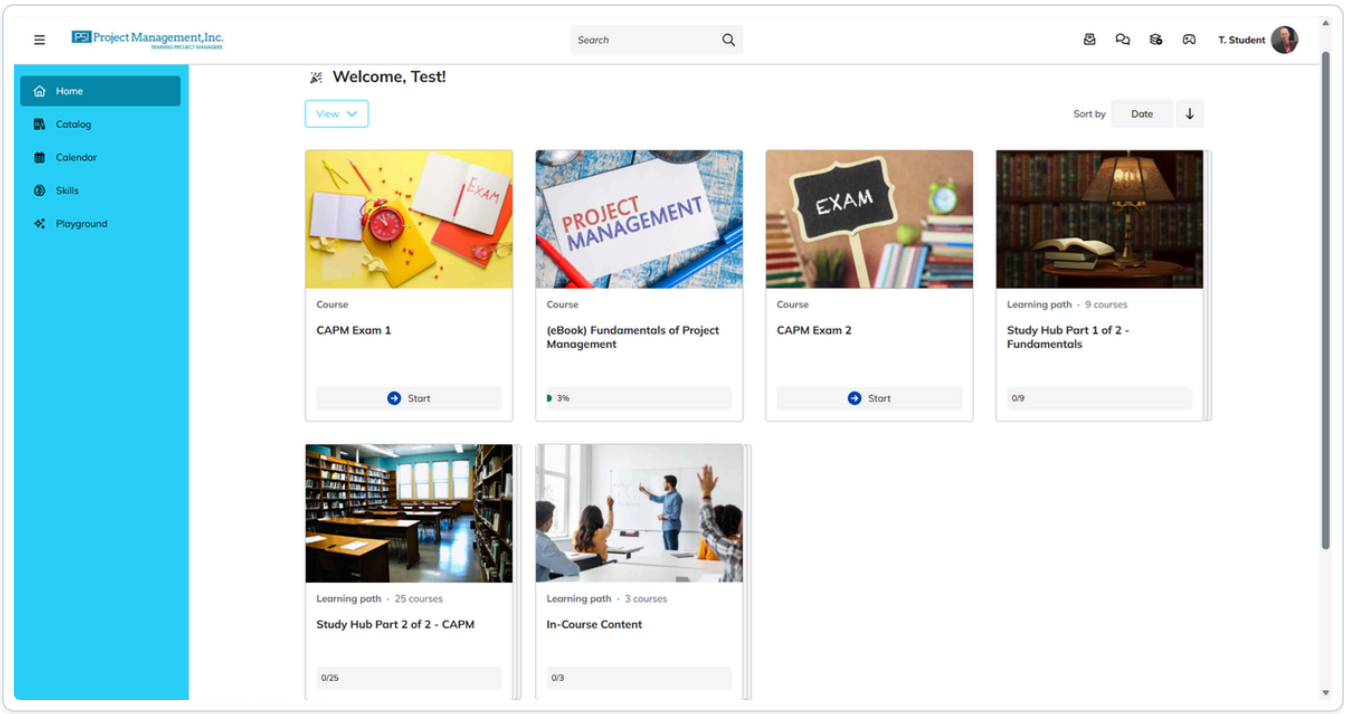

TIP Add everything now, even items you won't open right away — it saves you trips back to the catalog later.

7 Back to a full home screen

DO THIS Select the home icon to return to your dashboard.

Once you've added your items, select the home icon in the left menu. Your home screen now shows all six CAPM® items as cards.

Each card has a progress bar. It starts at 0% (or 0/9, 0/25 for the two Study Hub learning paths) and fills in as you work. Use Sort by and the arrow control at the top to change how your cards are ordered.

Your home screen with all six CAPM® items added.

WHAT TO LOOK FOR

- **Progress bar** —Shows how far through each item you are.
- **Start / Resume** —Begins a new item, or picks up where you left off.
- **Sort by** —Changes the order your course cards appear in.

NOTE Watch the progress bars. This course doesn't issue a certificate, so a full set of 100% bars is your finish line.

SECTION 03 EVERY COURSE

How any course works

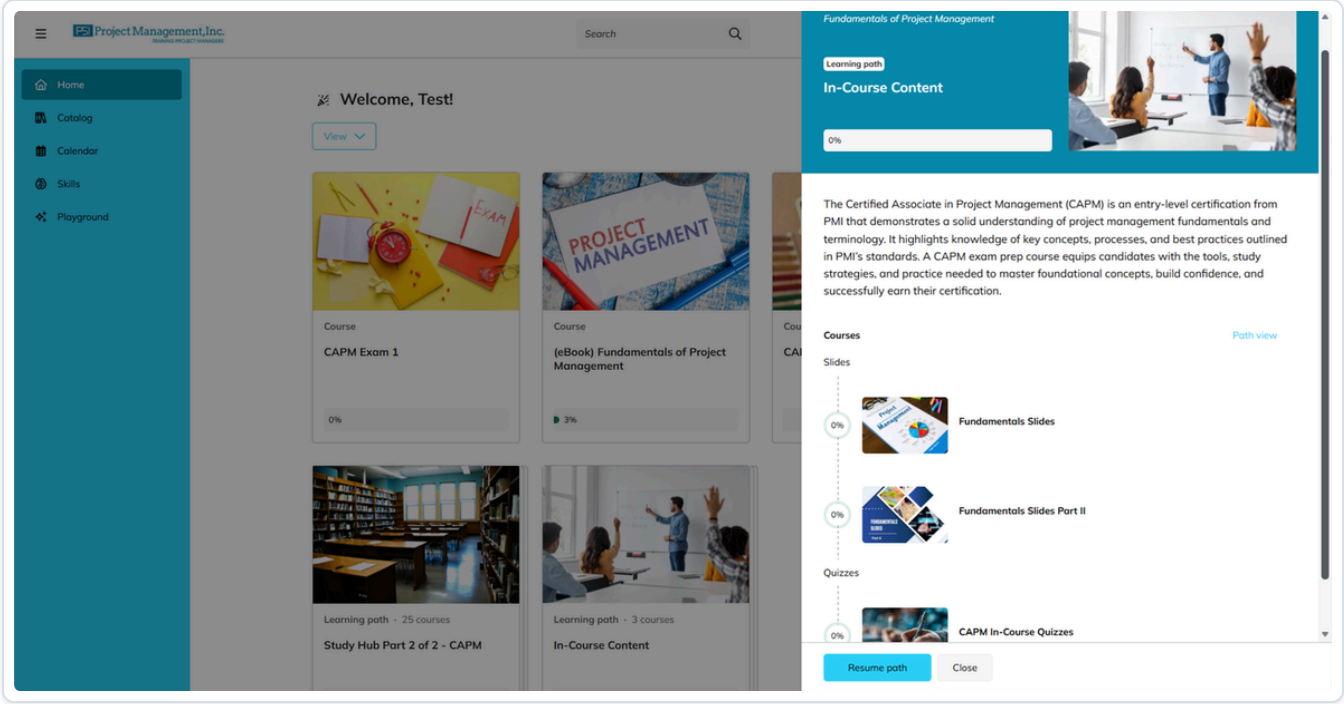

The panel you'll see whenever you open a course.

8 Open a course (the Content tab)

DO THIS Select any course card, then review the Content tab before you start.

Selecting a card opens a preview panel from the right. It shows a short course description, then the Content tab, which lists every unit inside — in the order you'll take them.

The note "All units must be completed" means you work straight through — finishing each unit moves your progress forward. Select Start course to begin, or Resume path / Resume course to pick up where you left off.

A course preview panel: description up top, then the Content tab listing units.

WHAT TO LOOK FOR

- **Content tab** —The list of units in this course.
- **"All units must be completed"** —You progress through the units in order.
- **Start course / Resume path** —Begin, or continue where you left off.
- **Close** —Returns to your home screen without starting.

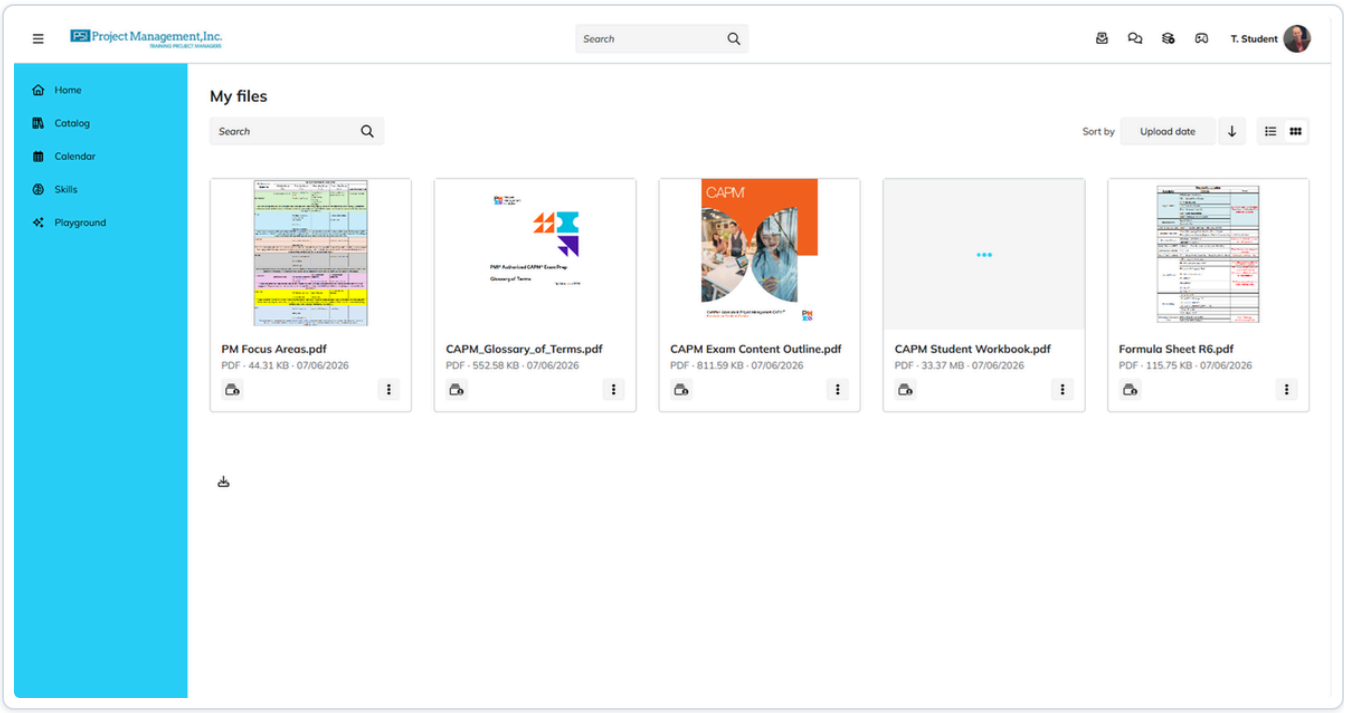

TIP Select "View more" on a long description to read the full course overview before you start.

9 Where your downloadable files live

DO THIS Open My files from your profile menu (top right) to find every downloadable PDF in one place.

Unlike a per-course Files tab, CAPM® keeps all your downloadable resources together in one place: select your profile picture (top right), then My files.

You'll find your Student Workbook, the CAPM® Glossary of Terms, the CAPM® Exam Content Outline, a Formula Sheet, and the PM Focus Areas reference — all as PDFs you can download and keep.

My files: every downloadable PDF for your course, all in one place.

WHAT TO LOOK FOR

- **Student Workbook.pdf** —Your in-class companion — see the next section.
- **CAPM® Glossary of Terms.pdf** —Definitions for the terminology used throughout the course.
- **CAPM® Exam Content Outline.pdf** —PMI®'s official breakdown of what the exam covers.
- **Formula Sheet R6.pdf & PM Focus Areas.pdf** —Extra reference handouts — helpful, not required.

NOTE These are optional references to support your studying — nothing here needs to be memorized on its own.

SECTION 04 IN CLASS

In class: following the live lessons

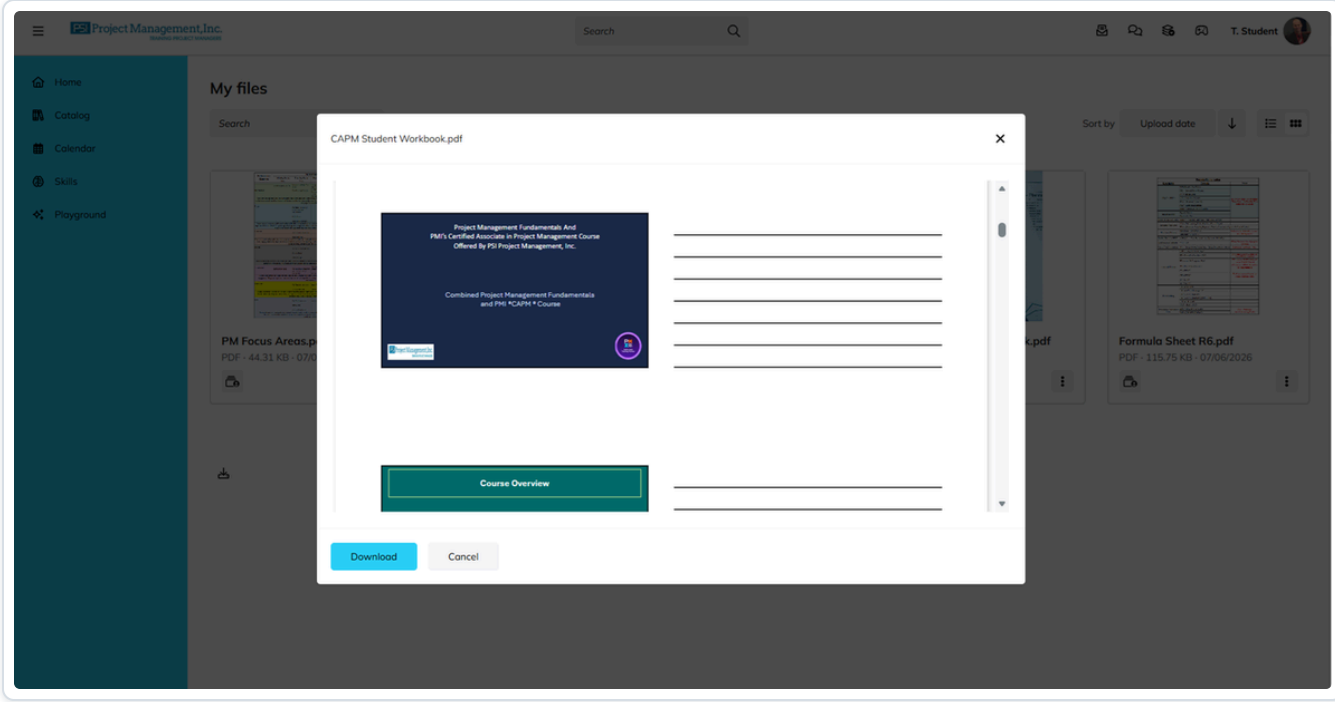

The materials you'll use live with your instructor during each session.

10 The Student Workbook (your class companion)

DO THIS Download the Student Workbook from My files, and keep it open during class.

The CAPM® Student Workbook combines the Fundamentals of Project Management content with the CAPM® curriculum in a single PDF, laid out with ruled lines beside the material so you can take notes by hand as your instructor teaches.

It's a large file (about 33 MB), so download it ahead of your first class from My files, and keep it open — or printed — through every live session.

The Student Workbook's cover — combined Fundamentals and CAPM® content with ruled note lines.

WHAT TO LOOK FOR

- **Ruled lines beside the content** — Space to write your own notes as you follow along.
- **Download** — Saves the PDF so you can keep it offline or print it.

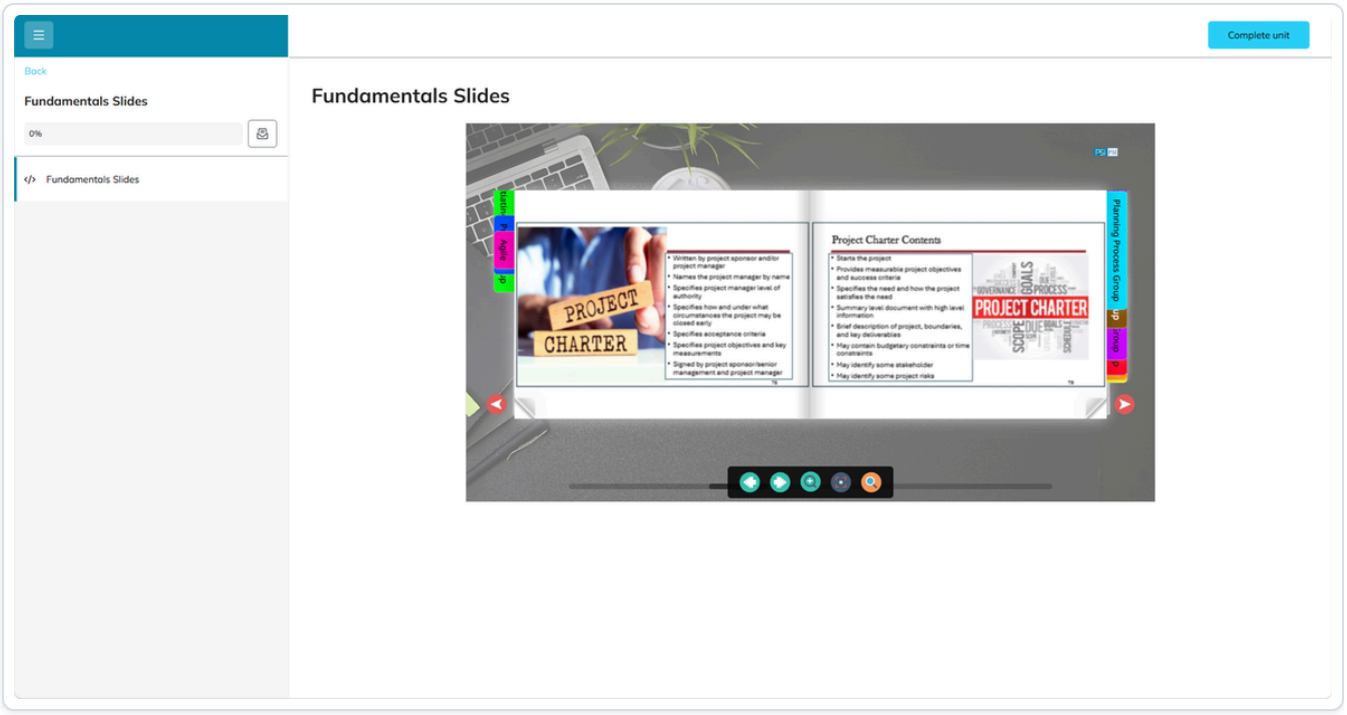

TIP Download it before your first class, so you can still follow along if your internet drops mid-session.

11 The Fundamentals Slides (what your instructor presents)

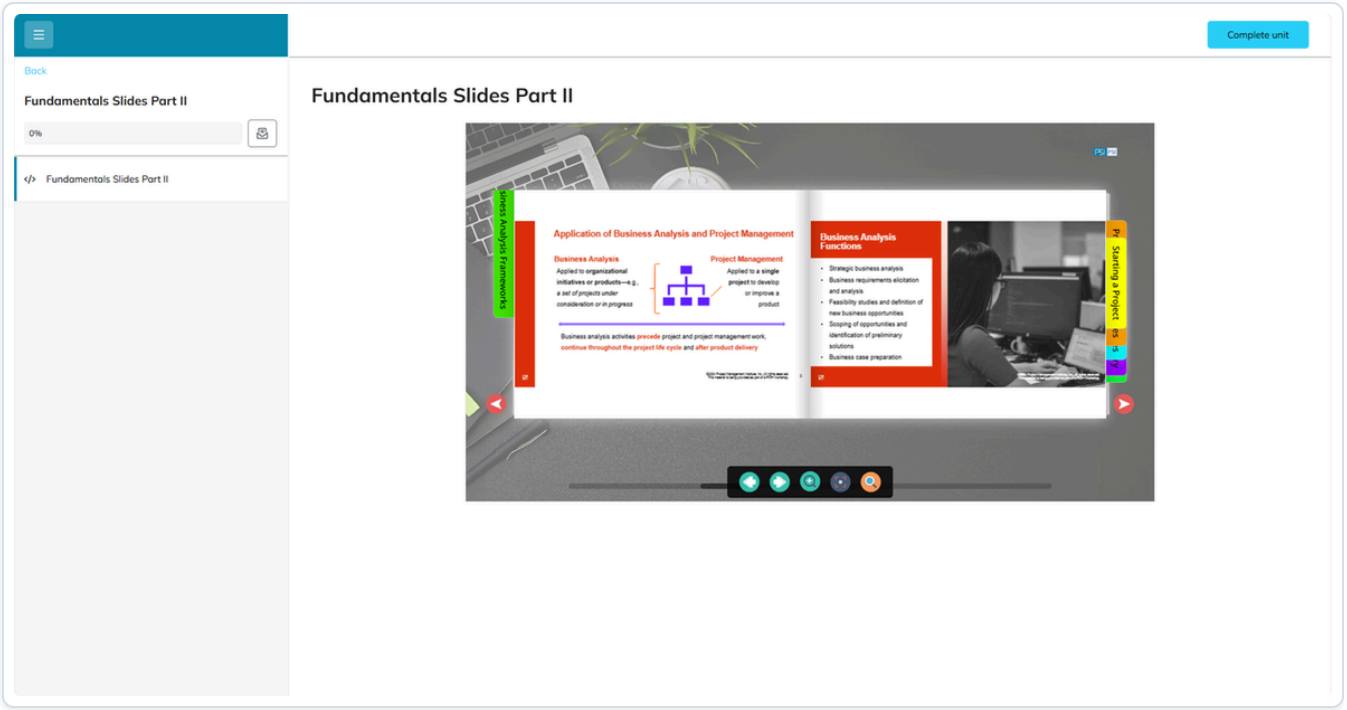

DO THIS During class, follow along with Fundamentals Slides and Fundamentals Slides Part II inside In-Course Content.

In-Course Content holds the slide decks your instructor teaches from — Fundamentals Slides and Fundamentals Slides Part II — shown in a page-turning viewer with color-coded tabs for each topic area (Starting a Project, Planning Process Group, Agile, Business Analysis Frameworks, and more).

Use the arrows or the page controls at the bottom to follow along page by page during class.

Fundamentals Slides, open in the page-turning viewer.

Fundamentals Slides Part II, further into the curriculum.

WHAT TO LOOK FOR

- **Color-coded tabs** —Mark which topic area each slide belongs to.
- **Page arrows / controls** —Turn pages, zoom, and jump to a page number.
- **Complete unit** —Marks the slide deck finished once you've been through it.

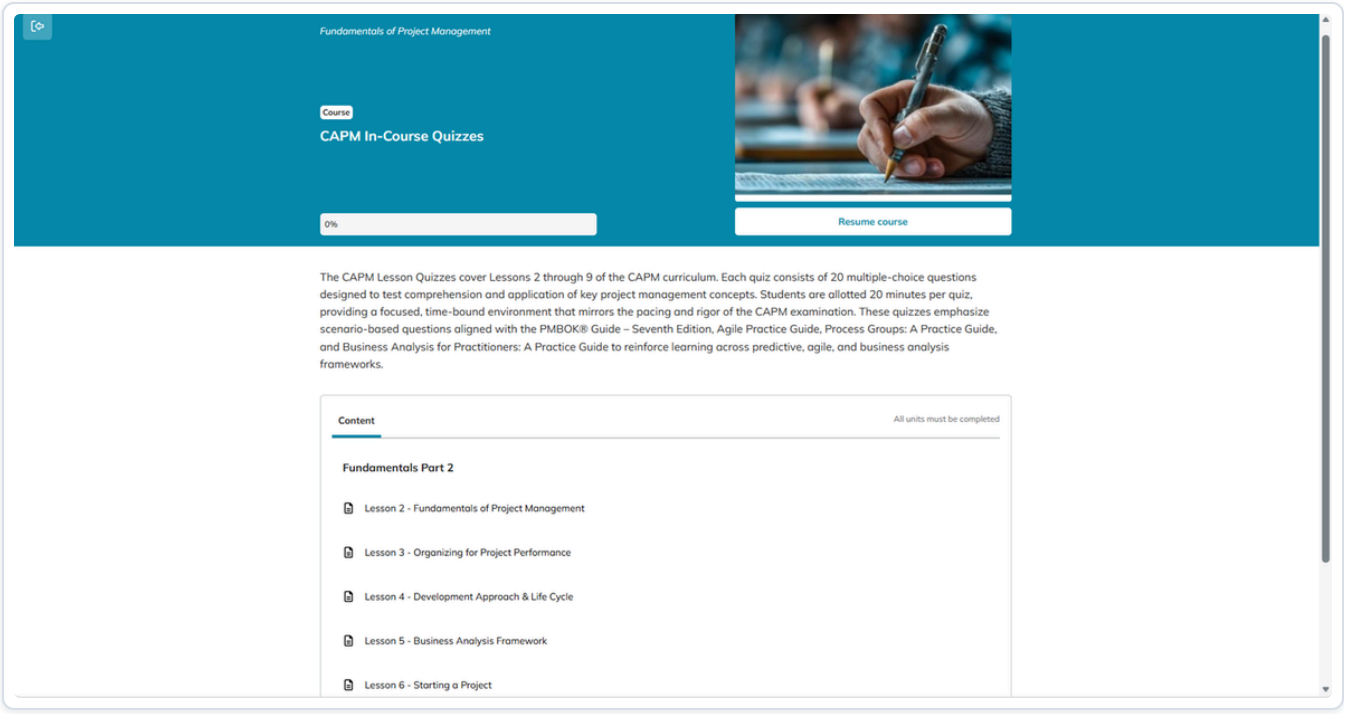

NOTE These are class companions, not a self-study step — you'll use them live with your instructor.

12 Take the CAPM® In-Course Quiz

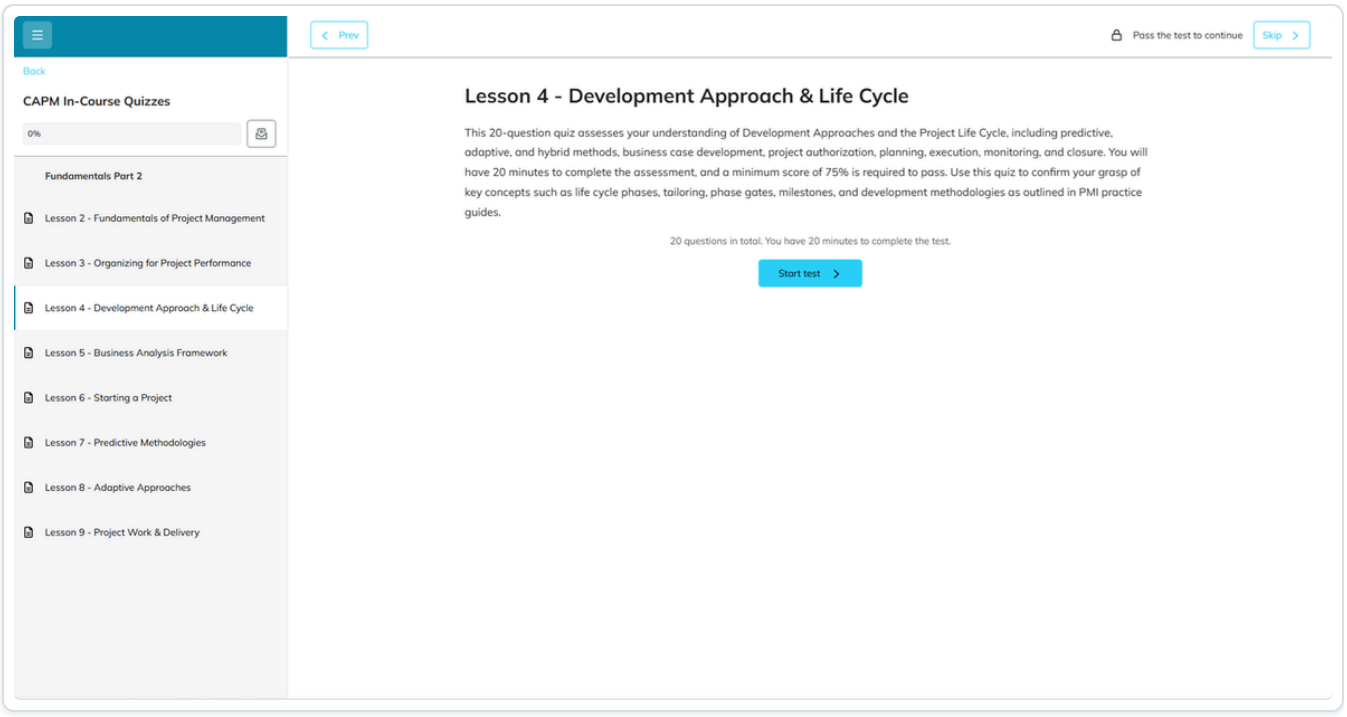

DO THIS In class, after your instructor teaches a lesson, open the matching quiz and select Start test.

The CAPM® In-Course Quizzes cover Lessons 2 through 9 — one quiz per lesson, each 20 multiple-choice questions in 20 minutes, needing 75% to pass. The "Pass the test to continue" lock means you must pass one to unlock the next; Skip is also available if your instructor allows it.

Take these in class, right after the matching lesson. If there isn't time during the session, complete the quiz before the next lesson begins. Questions are scenario-based and aligned to the PMBOK® Guide, the Agile Practice Guide, and the Business Analysis for Practitioners guide.

The CAPM® In-Course Quizzes course, listing Lessons 2–9.

A lesson quiz intro screen — questions, time limit, and pass mark.

WHAT TO LOOK FOR

- **Start test** —Begins the quiz.
- **Pass the test to continue (lock icon)** —You must pass to unlock the next quiz.
- **Skip** —Moves past a quiz if your instructor permits it.
- **20 questions / 20 minutes / 75%** —The length, time limit, and pass mark for every lesson quiz.

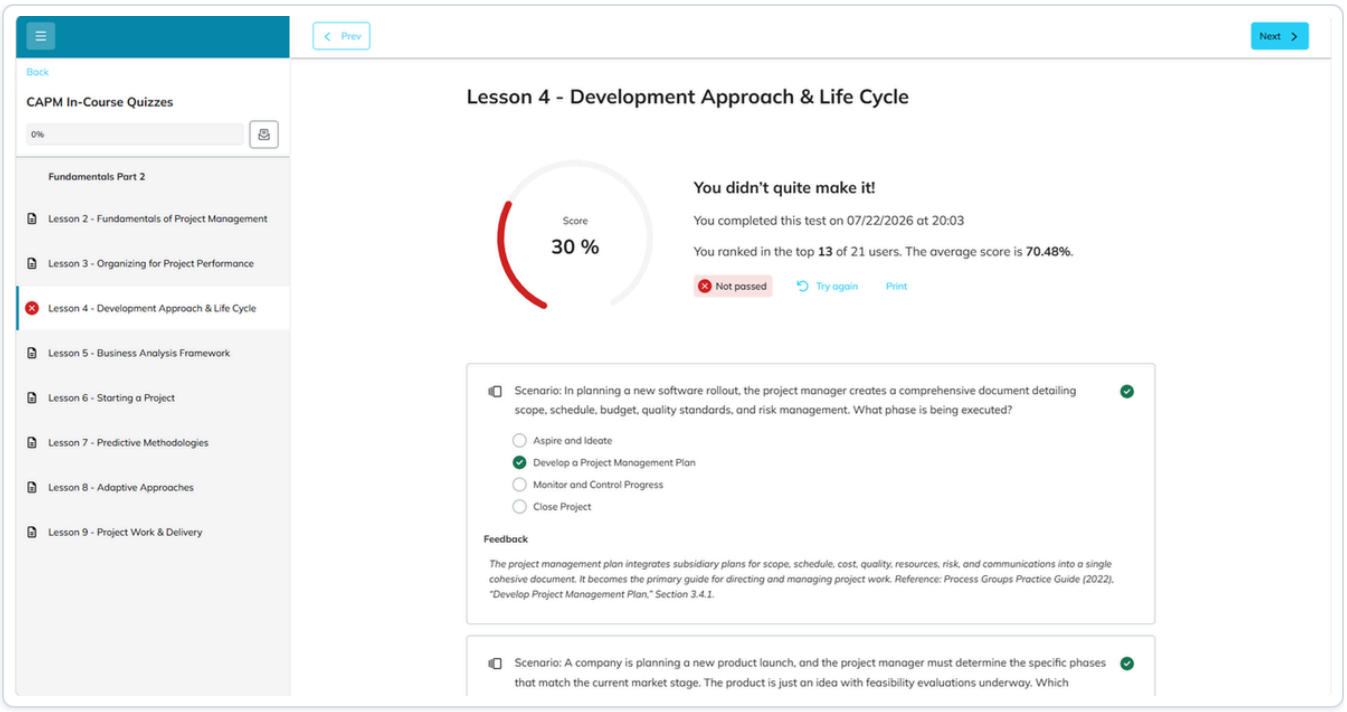

IMPORTANT If a quiz won't let you submit or advance but the timer keeps running, click your browser's refresh button. It won't reset your attempt — you'll pick up right where you left off. This is an occasional TalentLMS quirk, not a problem with your work.

13 Reading your quiz results

DO THIS After you submit, review your score, your class ranking, and the feedback on each question.

When you finish a quiz, you'll see your score in a dial and whether you passed. If you didn't reach 75%, you'll see "You didn't quite make it!" with a Try again option — you're welcome to retake it. You'll also see how you ranked among other students and the class average score.

Below your score, every question is shown again with the correct answer marked and written feedback explaining the reasoning — often with a citation back to the source guide, so you can see exactly why an answer is correct. Print lets you save a copy of the results.

A results screen: score dial, class ranking, and written feedback on each question.

WHAT TO LOOK FOR

- **Score dial** —Your percentage for this attempt.
- **Ranked in the top N of N users** —How you compare to your classmates on this quiz.
- **Feedback** —A written explanation — often citing the source guide — for the correct answer.
- **Try again** —Retake the quiz.

TIP Read the feedback even on questions you got right — it often explains a nuance worth remembering for the exam.

SECTION 05 SELF-PACED

The Study Hub (your 34-day plan)

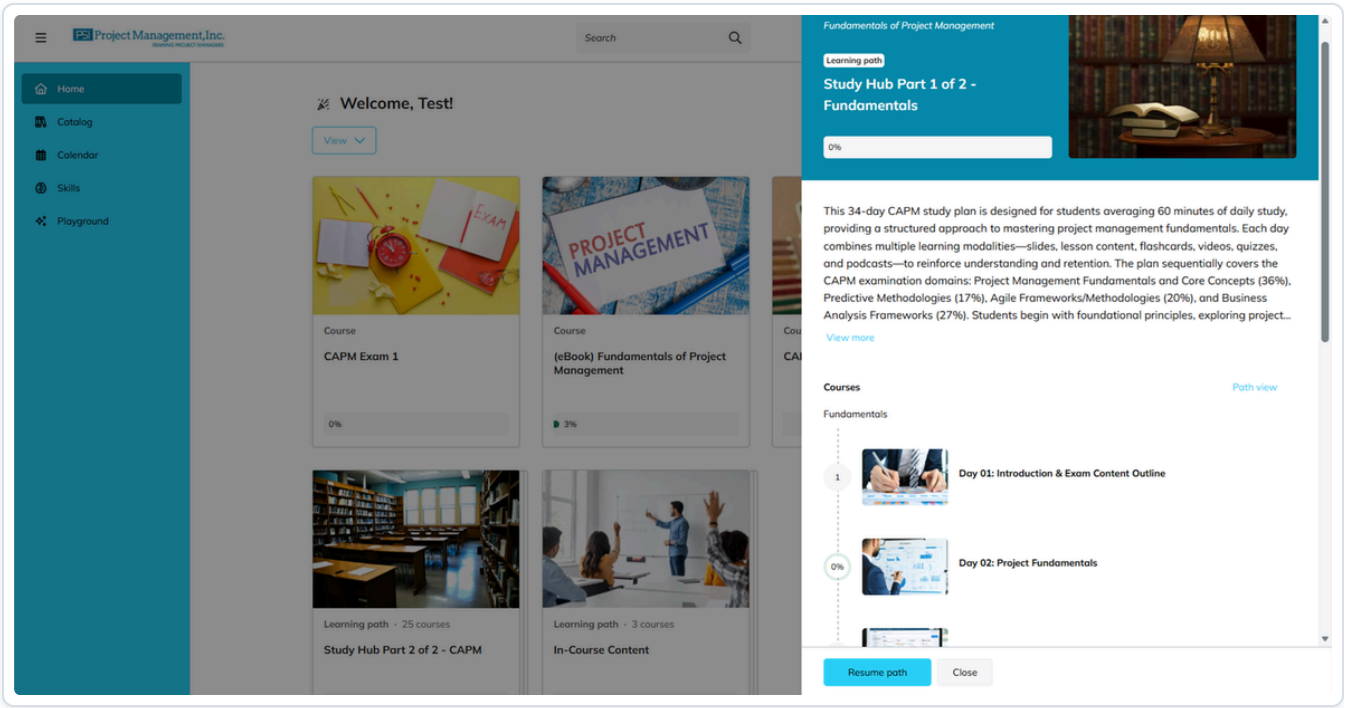

Your guided, self-paced study after class — two parts that run as one continuous plan.

14 How the Study Hub is organized

DO THIS Work Part 1 of 2 – Fundamentals to completion, then move on to Part 2 of 2 – CAPM®.

After class, the Study Hub is your self-paced study — one continuous 34-day plan split across two learning paths: Part 1 of 2 – Fundamentals (9 days) and Part 2 of 2 – CAPM® (25 days). Averaging about 60 minutes a day, it sequentially covers all four exam domains: Project Management Fundamentals and Core Concepts (36%), Predictive Methodologies (17%), Agile Frameworks (20%), and Business Analysis Frameworks (27%) — those percentages are each domain's share of exam questions, not your progress.

Each day is one focused session, like Day 01: Introduction & Exam Content Outline or Day 02: Project Fundamentals. Use Resume path to continue where you stopped, and finish all of Part 1 before starting Part 2.

Study Hub Part 1 of 2 – Fundamentals: a day-by-day path, with its overview and domain breakdown.

WHAT TO LOOK FOR

- **Day-by-day path** —Each day is one focused study session.
- **Domain breakdown (e.g. 36%)** —Each domain's share of exam questions — not your progress.
- **Resume path** —Picks up at your next unfinished day.

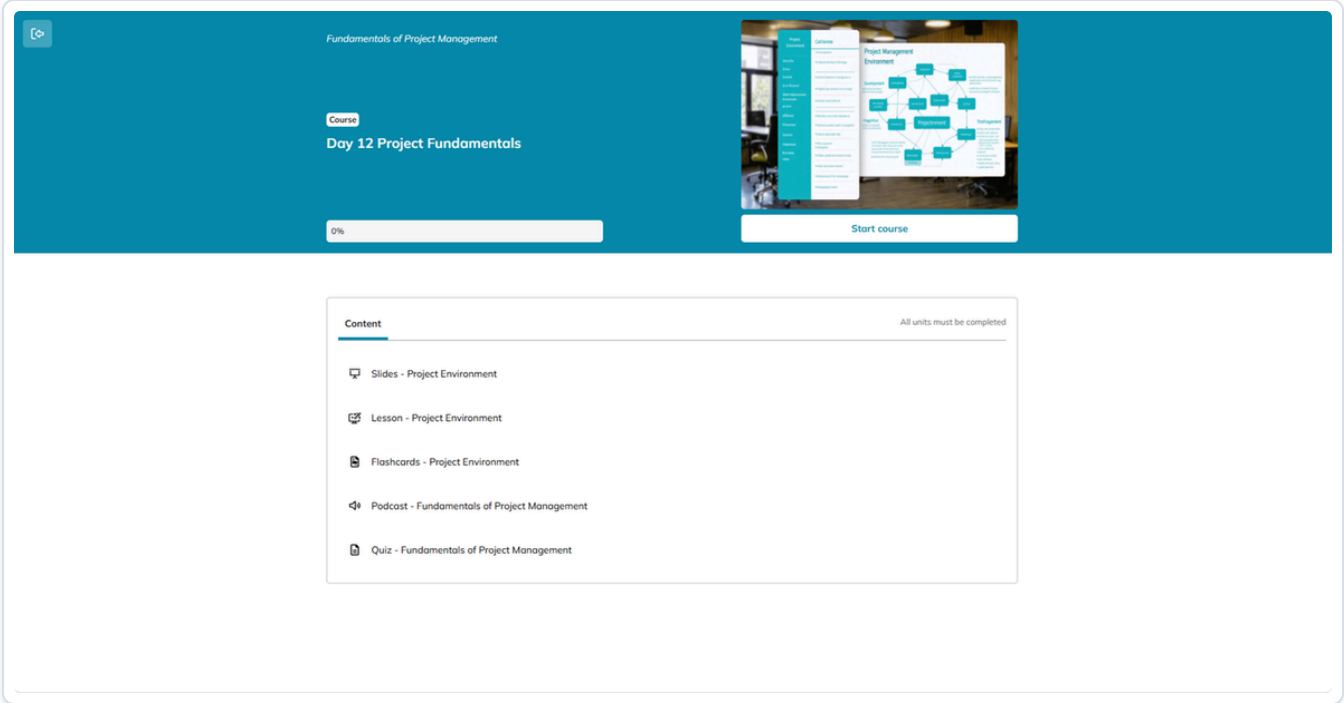

IMPORTANT Work Part 1 to completion before starting Part 2 — together they form one continuous 34-day plan.

15 Inside a single day

DO THIS Open any day and work through its five parts in order.

Each day follows the same reliable structure. A day includes Slides for that topic, a Lesson to read, Flashcards for recall practice, a Podcast to listen to, and a Quiz to check yourself.

Select Start course to begin, then move through the parts from top to bottom. As with any course, “All units must be completed,” so finish each part to complete the day.

Inside one day: five parts, from Slides to Quiz.

WHAT TO LOOK FOR

- **Slides** —A short slide deck introducing the day’s topic.
- **Lesson** —The day’s full reading.
- **Flashcards** —Quick self-testing, via Brainscape.
- **Podcast** —An audio recap you can listen to anywhere.
- **Quiz** —Checks what you’ve learned that day.

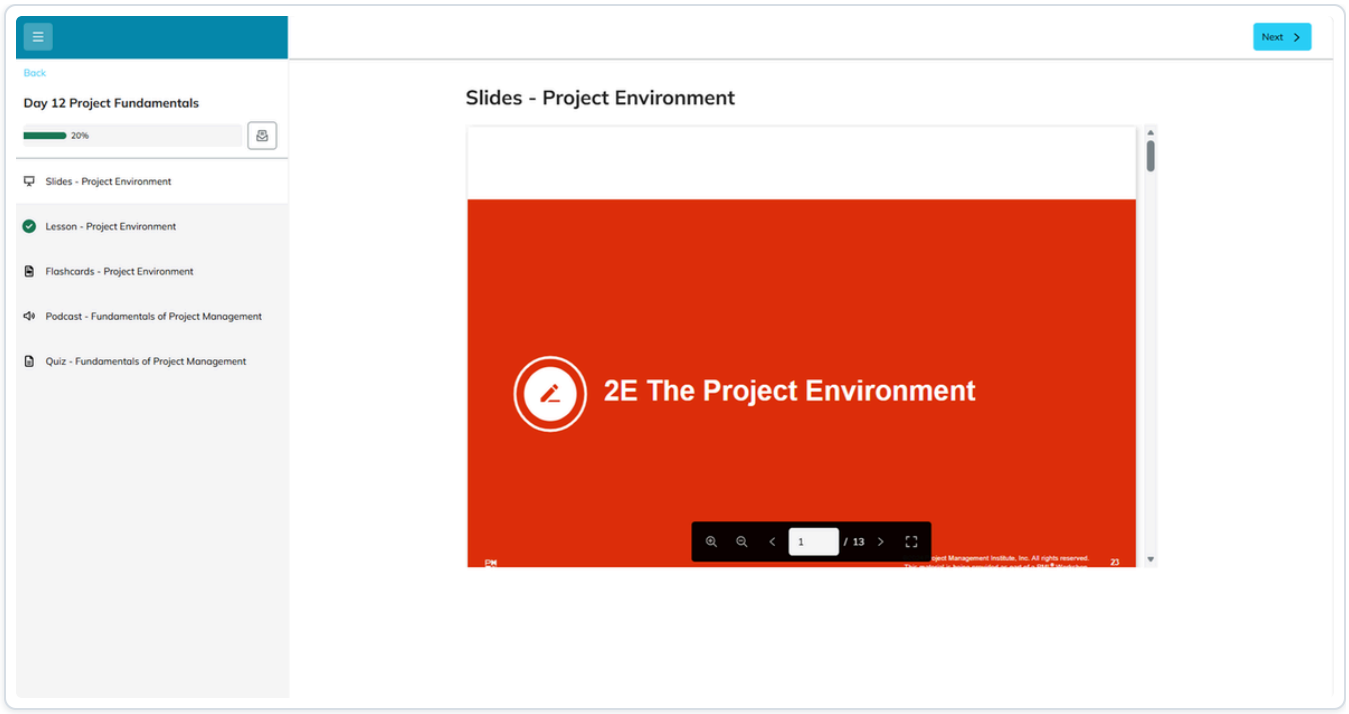

TIP The five formats cover reading, listening, and testing — lean on whichever suits how you study best.

16 The day’s slides and lesson

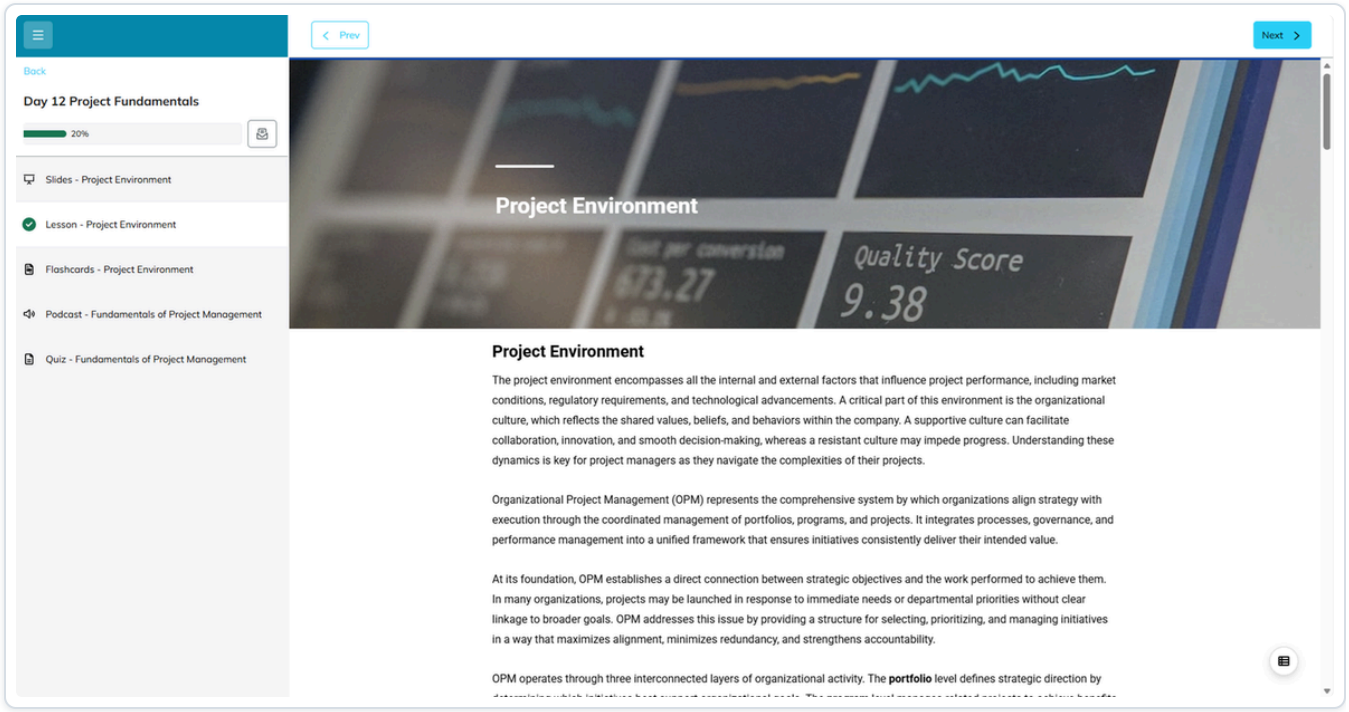

DO THIS Read the Slides, then the full Lesson, in order.

The day’s Slides give a short visual introduction to the topic; the Lesson that follows is the full written explanation, often illustrated with a photo banner and broken into clearly headed sections.

Use Prev / Next at the top to move between parts, and the checklist on the left to see what’s done (a green checkmark) and what’s still ahead.

A day's Slides, in the page-turning viewer.

A day's Lesson — the full written explanation of the topic.

WHAT TO LOOK FOR

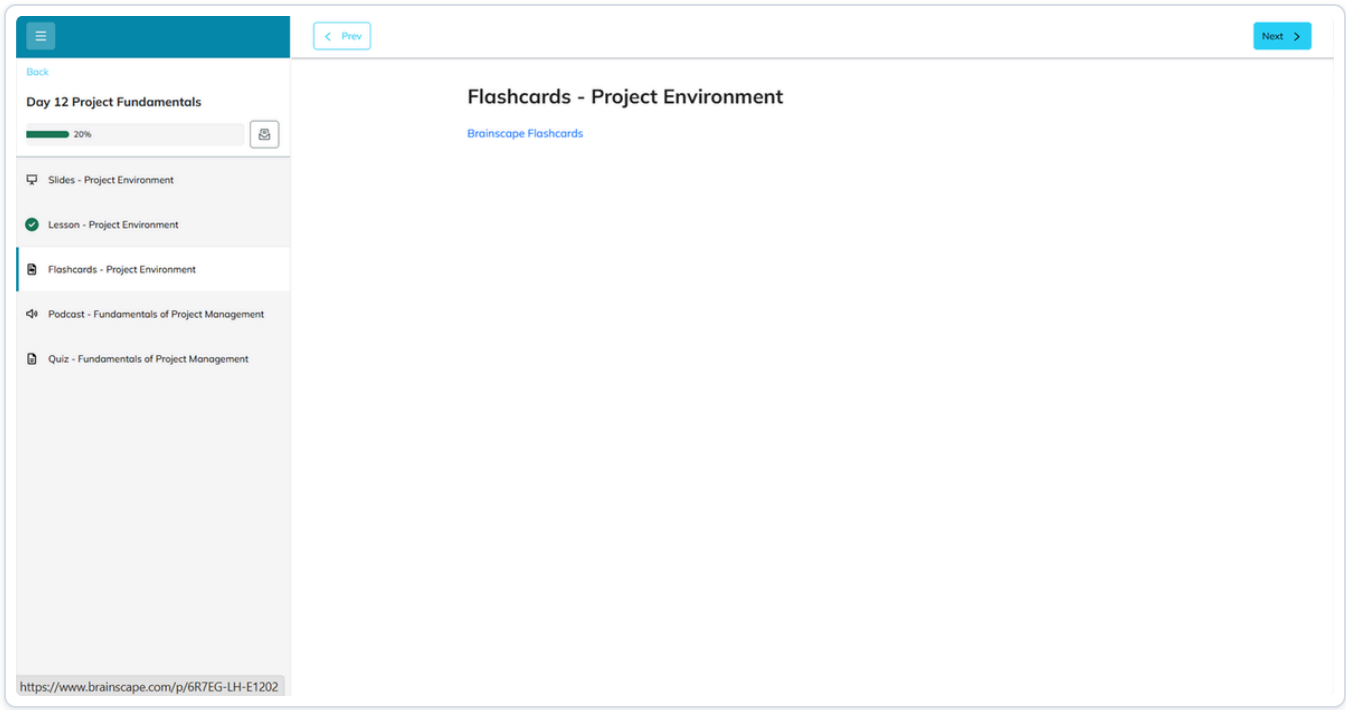

- **Prev / Next** — Moves between the day's five parts.
- **Green checkmark (left list)** — Marks a part you've already completed.

17 Flashcards and the podcast

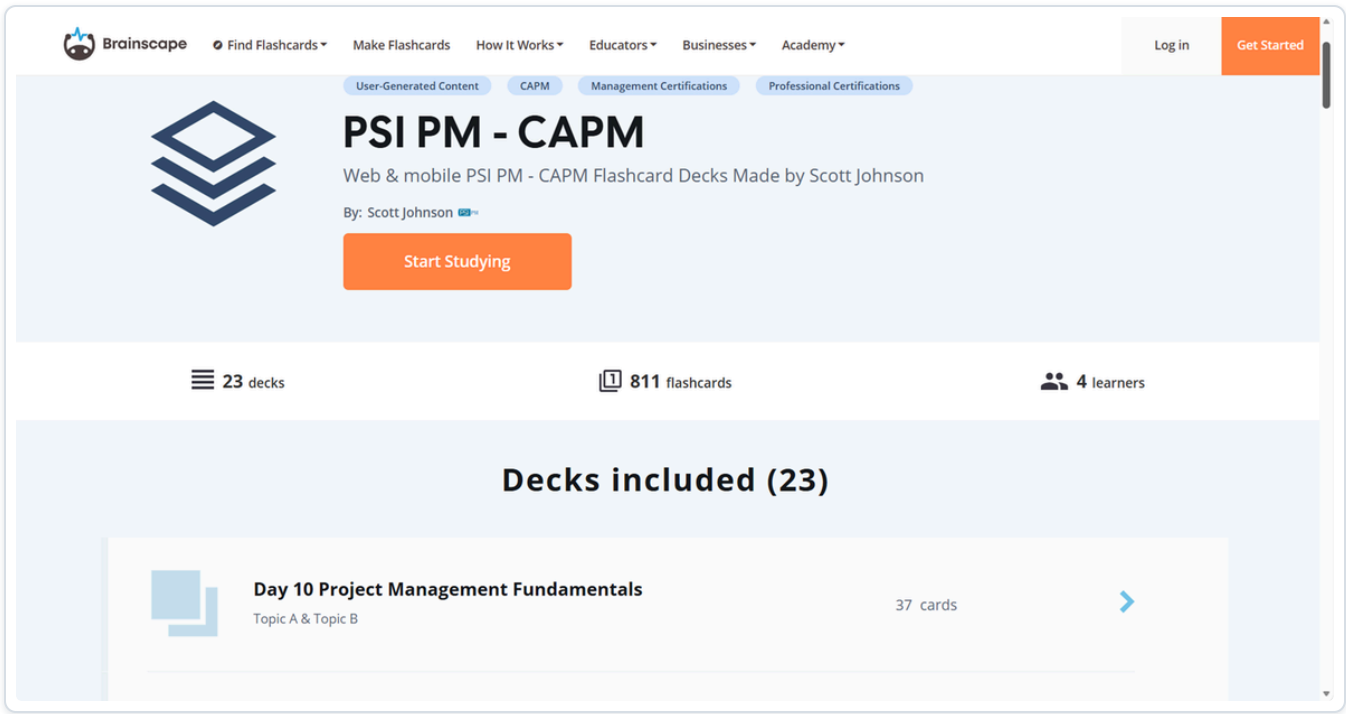

DO THIS Select the Brainscape link to open your flashcards, then return for the day's podcast.

Flashcards for each day link out to Brainscape, PSI PM's dedicated flashcard platform — 23 decks and over 800 cards in total, covering every day of the Study Hub. Select the link to open the matching deck and start studying.

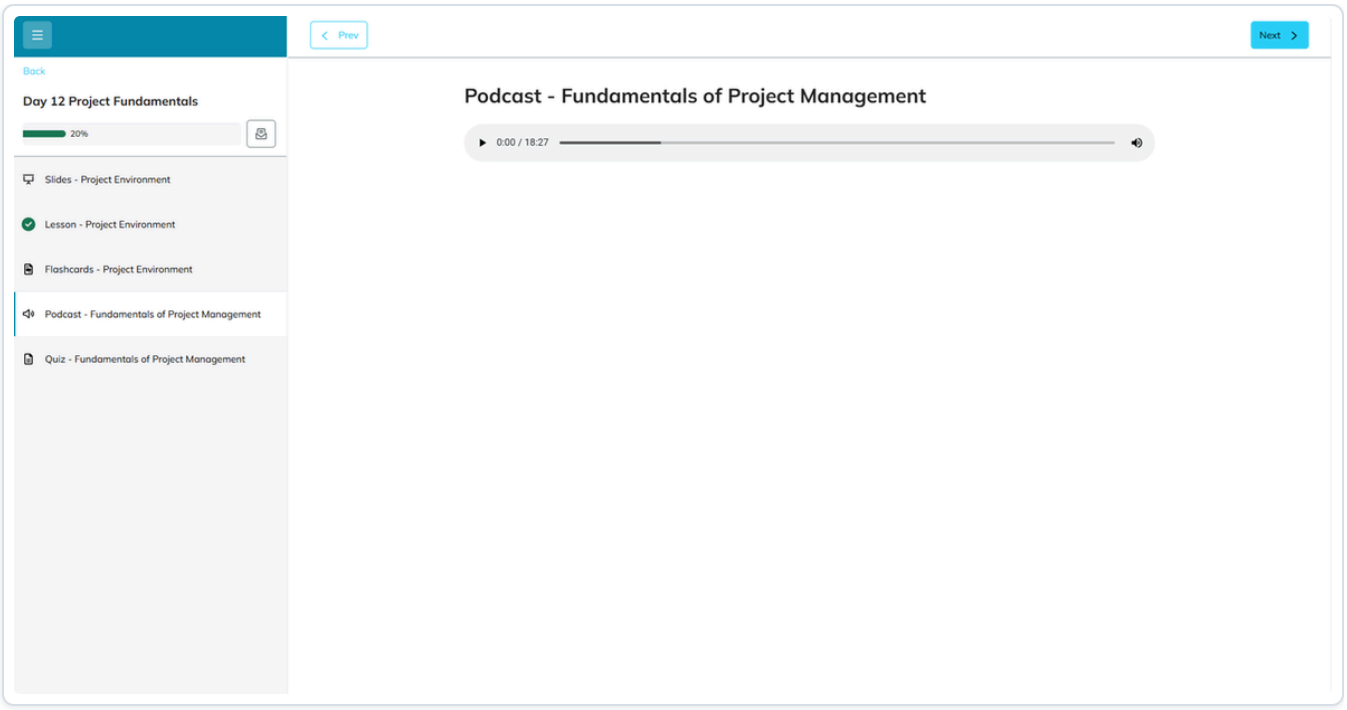

The Podcast is a short audio recap of the day's topic — use the play button and scrub bar to listen at your own pace, whether at your desk or on the go.

A day's Flashcards unit, linking out to Brainscape.

The Brainscape site: PSI PM - CAPM®, 23 decks and 800+ cards.

The day's podcast player.

WHAT TO LOOK FOR

- **Brainscape Flashcards (link)** —Opens that day's deck on Brainscape.
- **Start Studying** —Begins your flashcard review on Brainscape.
- **Play / scrub bar** —Controls for the podcast audio.

TIP Brainscape works on both web and mobile, so flashcards are an easy way to review CAPM® material in spare moments.

SECTION 06 SELF-PACED

The (eBook) Fundamentals of Project Management

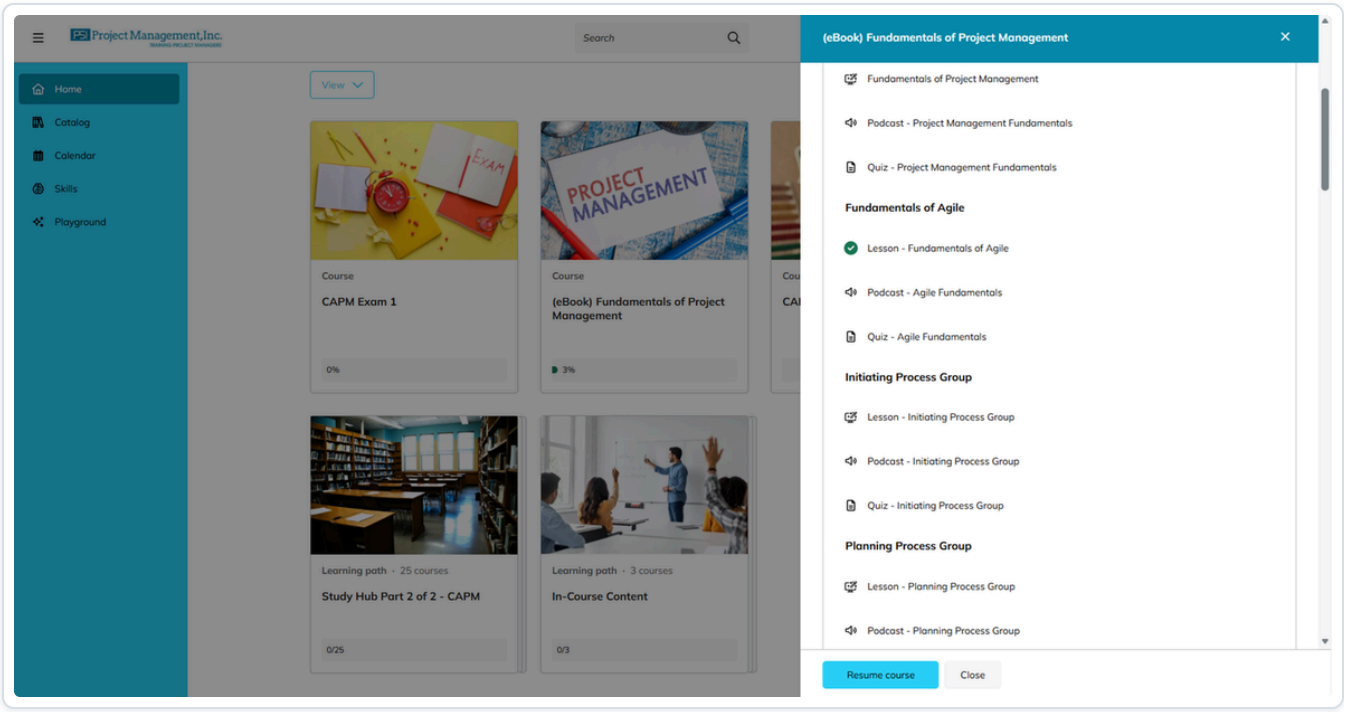

A self-paced reference organized by topic, not by day — read whenever a subject needs a closer look.

18 How the eBook is organized

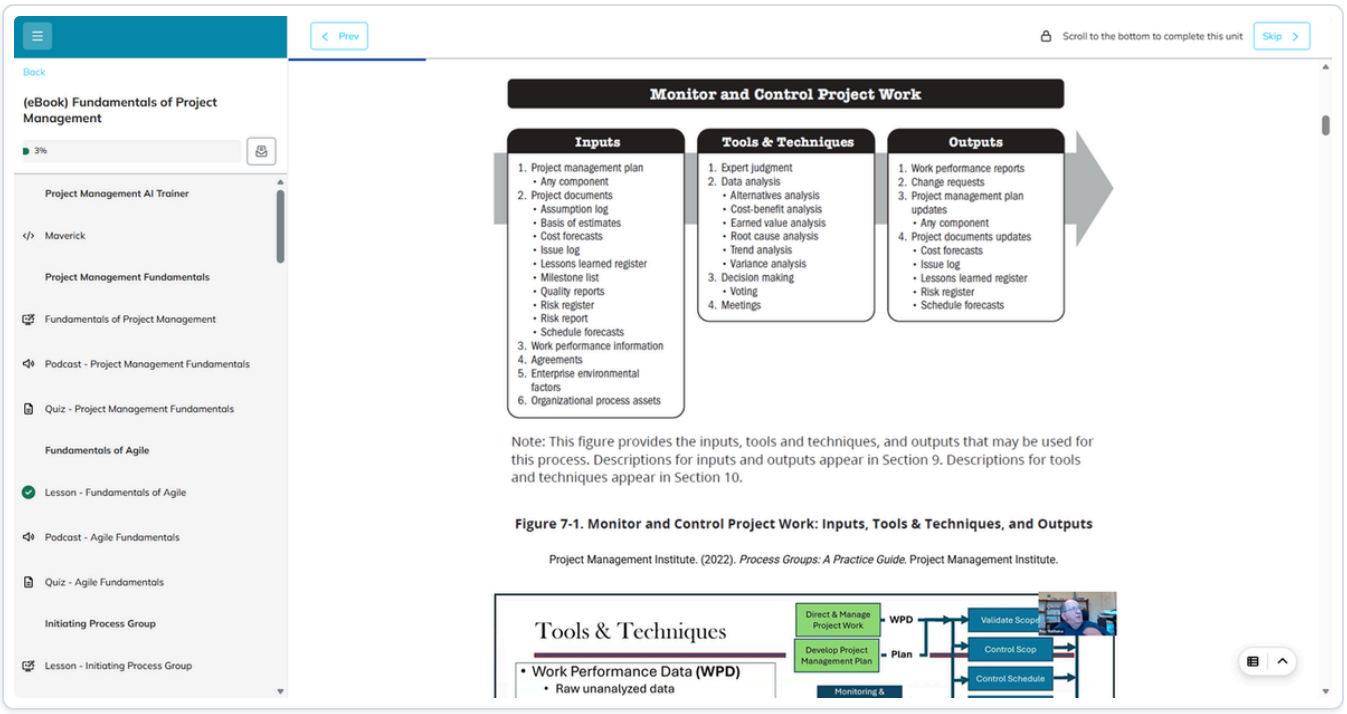

DO THIS Open the eBook any time you want to go deeper on a specific topic, working lesson by lesson.

The (eBook) Fundamentals of Project Management is a self-paced reference, organized by topic rather than by day — sections like Fundamentals of Project Management, Fundamentals of Agile, Initiating Process Group, and Planning Process Group, each with its own Lesson, Podcast, and Quiz.

Reach for it whenever you want a deeper pass on a specific topic, separate from your daily Study Hub plan. The full list of sections runs down the left, with a green checkmark marking anything you've completed.

Inside the eBook: a lesson page with figures and inputs/tools/outputs tables.

The eBook's left-hand list of sections, each with its Lesson, Podcast, and Quiz.

WHAT TO LOOK FOR

- **Section list (left)** —Jump to any topic — Fundamentals, Agile, Initiating, Planning, and more.
- **Lesson / Podcast / Quiz** —Each section has all three, just like a Study Hub day.
- **Green checkmark** —Marks a part you've already completed.

NOTE This is optional reinforcement, organized by topic rather than a day-by-day plan — use it when a subject needs another look.

SECTION 07 SELF-PACED

Practice exams

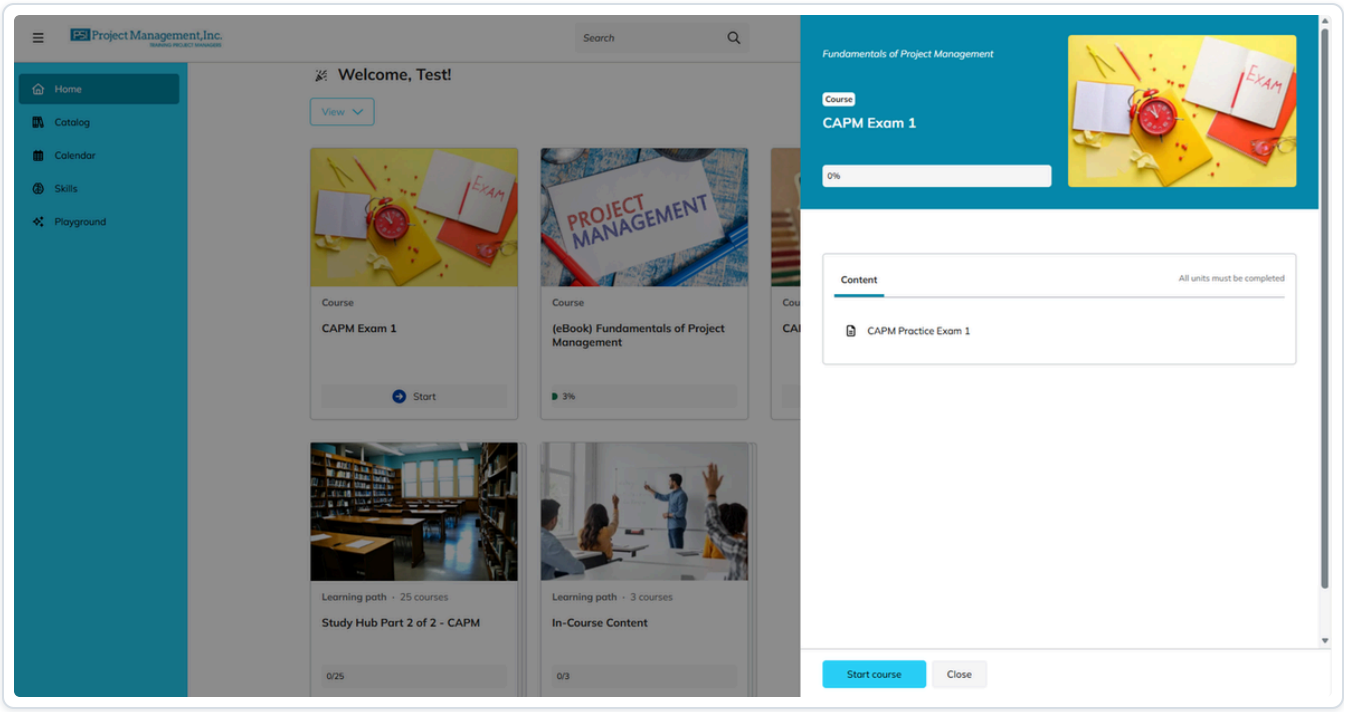

Full-length, exam-style practice — once both Study Hub parts are complete.

19 What's in CAPM® Exam 1 and Exam 2

DO THIS After finishing both Study Hub parts, open CAPM® Exam 1, then Exam 2, to work the full-length tests.

Save these for after you've completed both Study Hub parts. Each exam is a full-length, exam-style test — 150 questions over 190 minutes with a built-in 10-minute break, the same shape as the real CAPM® exam.

Questions span all four domains — Project Management Fundamentals and Core Concepts (36%), Predictive Methodologies (17%), Agile Frameworks (20%), and Business Analysis Frameworks (27%) — aligned with the PMBOK® Guide, the Agile Practice Guide, and the Business Analysis for Practitioners guide.

The Practice Exam intro screen: question count, time limit, break, and domain breakdown.

WHAT TO LOOK FOR

- **150 questions / 190 minutes** —The length and time limit for each practice exam.
- **10-minute break** —Built into the exam, matching the real CAPM® exam experience.
- **Domain breakdown** —Each domain's share of the questions you'll see.

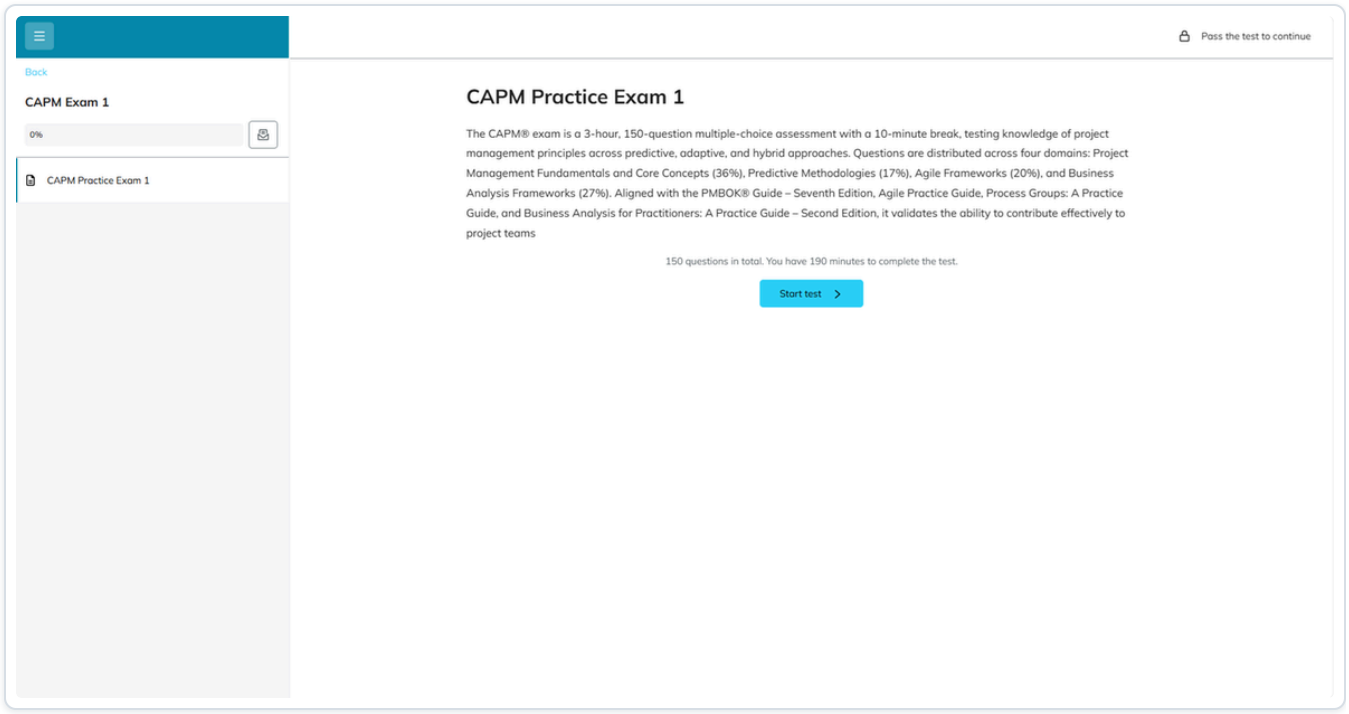

IMPORTANT These are long. Set aside a quiet, uninterrupted block of time and treat them like the real thing — it's the best way to build exam stamina.

20 Taking a practice exam

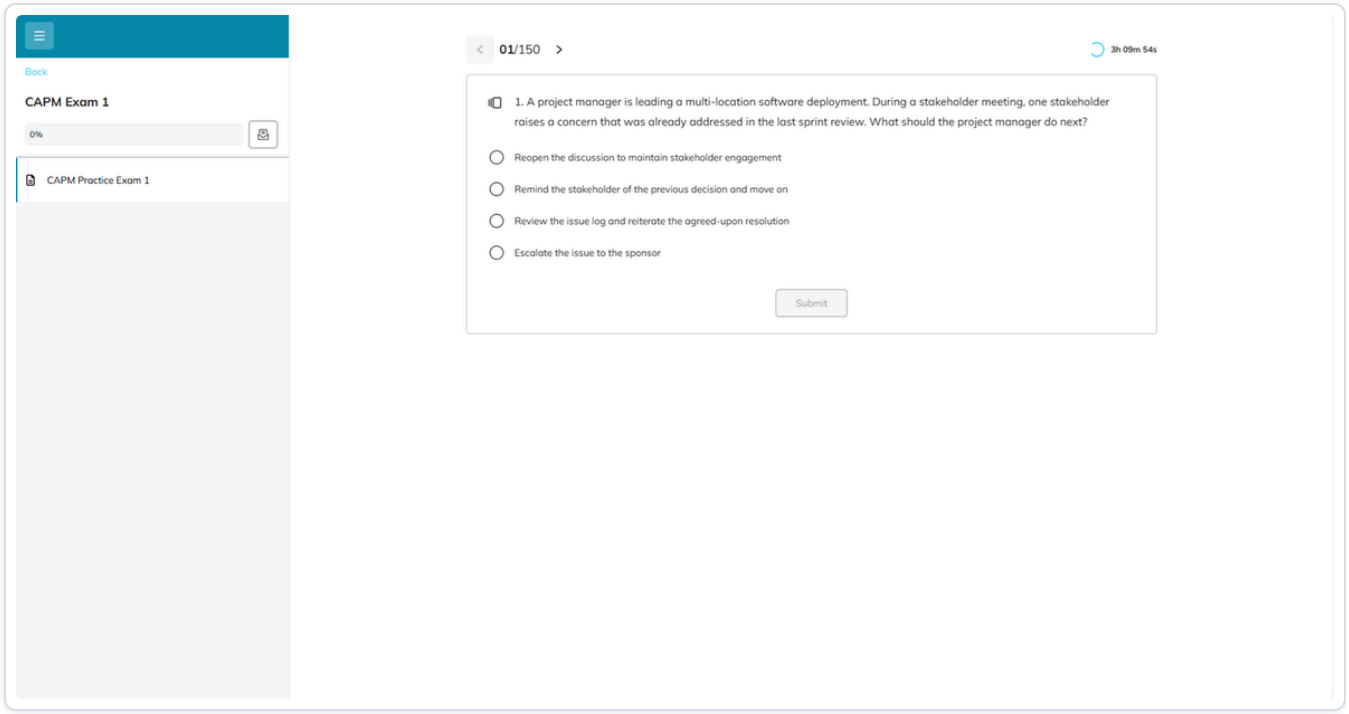

DO THIS Choose your answer for each question, then select Submit to advance.

Inside an exam, one question shows at a time. The counter at the top (for example, 01/150) tracks your place, and the timer in the corner counts down your remaining time.

Select your answer, then Submit to move on. Use the arrows beside the counter to move between questions.

The exam's Content tab, showing the single Practice Exam unit.

A practice exam question, with the answer options and countdown timer.

WHAT TO LOOK FOR

- **Question counter (01/150)** —Where you are in the exam.
- **Countdown timer** —Your time remaining.
- **Submit** —Locks in your answer and moves forward.

IMPORTANT Same fix as the quizzes: if the exam won't let you submit or advance but the timer keeps running, click your browser's refresh button. It won't reset your exam — you'll continue right where you left off.

SECTION 08 ANYTIME

The Learning Playground

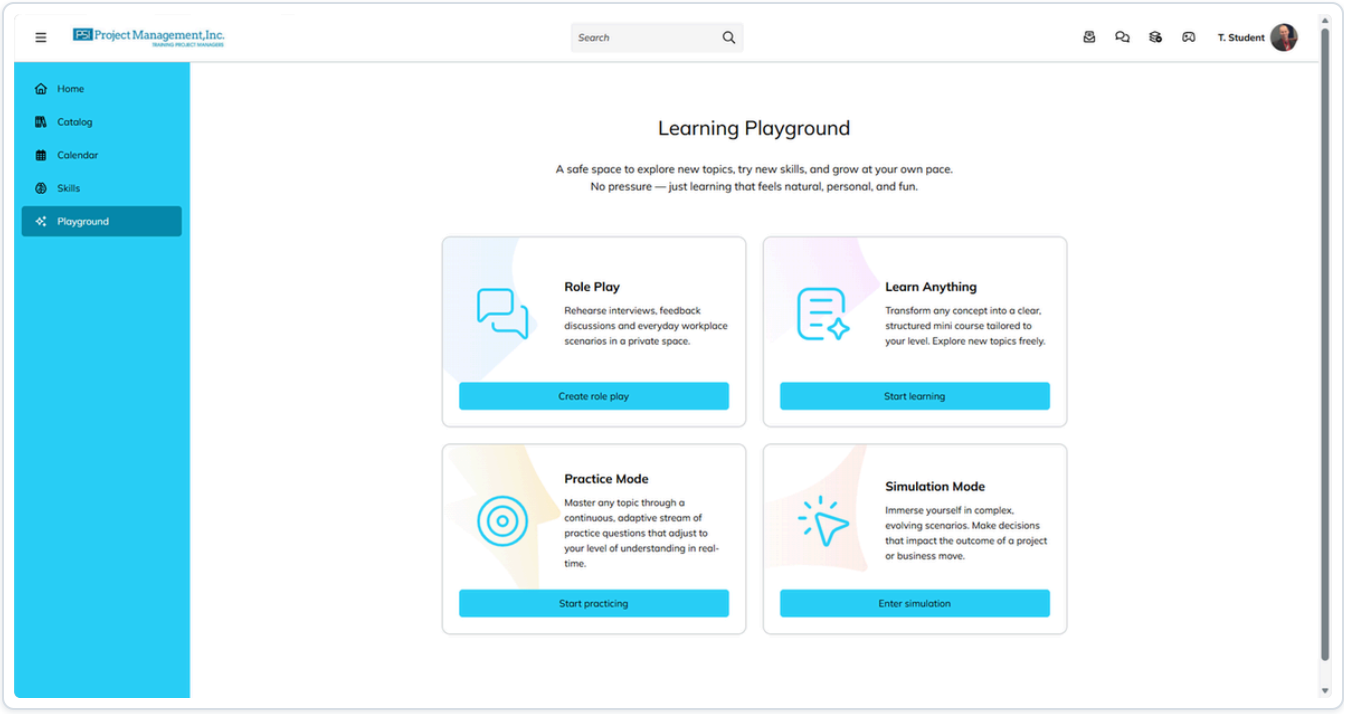

An AI-powered study space with four modes — a great resource whenever you want extra, personalized practice.

21 The four modes at a glance

DO THIS Select the Playground icon in the left menu, then choose the mode that fits what you want to do.

The Learning Playground is a safe space to explore topics, practice, and grow at your own pace — no pressure, just learning that adapts to you. It offers four modes: Role Play (rehearse conversations and scenarios), Learn Anything (turns a topic into a structured mini-course), Practice Mode (an adaptive stream of practice questions), and Simulation Mode (immersive, evolving scenarios where your decisions matter).

You can use the Playground any time — it isn't tied to your Study Hub schedule and doesn't affect your course progress bars.

The Learning Playground home: Role Play, Learn Anything, Practice Mode, and Simulation Mode.

WHAT TO LOOK FOR

- **Role Play** —Rehearse interviews, feedback conversations, or workplace scenarios.
- **Learn Anything** —Turns any topic into a structured mini-course tailored to your level.
- **Practice Mode** —A continuous, adaptive stream of practice questions.
- **Simulation Mode** —Immersive, evolving scenarios shaped by your decisions.

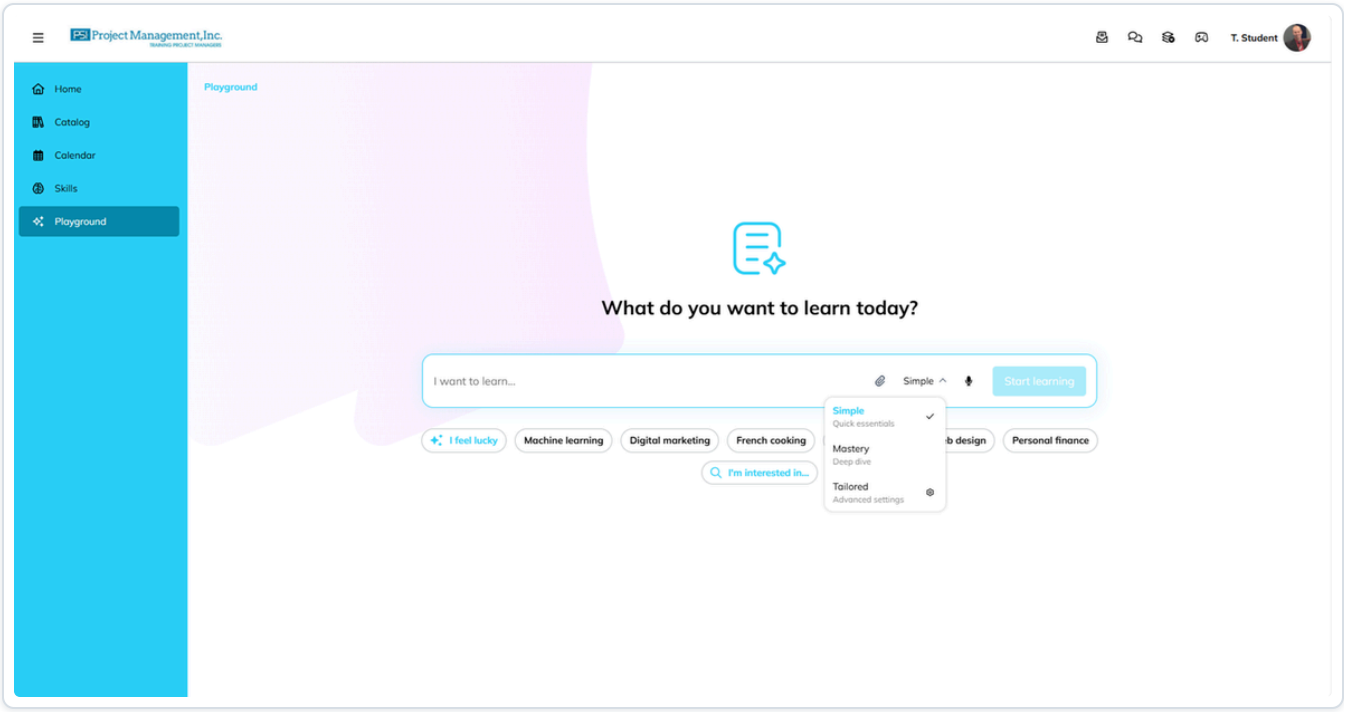

TIP Try Practice Mode on a CAPM® domain you found difficult in a Study Hub quiz — it adapts to your level in real time.

22 Learn Anything

DO THIS Type what you want to learn, choose a depth, and select Start learning.

Type a topic into “I want to learn…,” or pick one of the suggested chips. Choose a depth — Simple (quick essentials), Mastery (a deep dive), or Tailored (your own advanced settings) — then select Start learning to generate a structured mini-course on that topic.

This is a great way to get a fast, focused explainer on a CAPM® concept that didn’t quite click during your Study Hub reading.

Learn Anything: type a topic, pick a depth, and start learning.

WHAT TO LOOK FOR

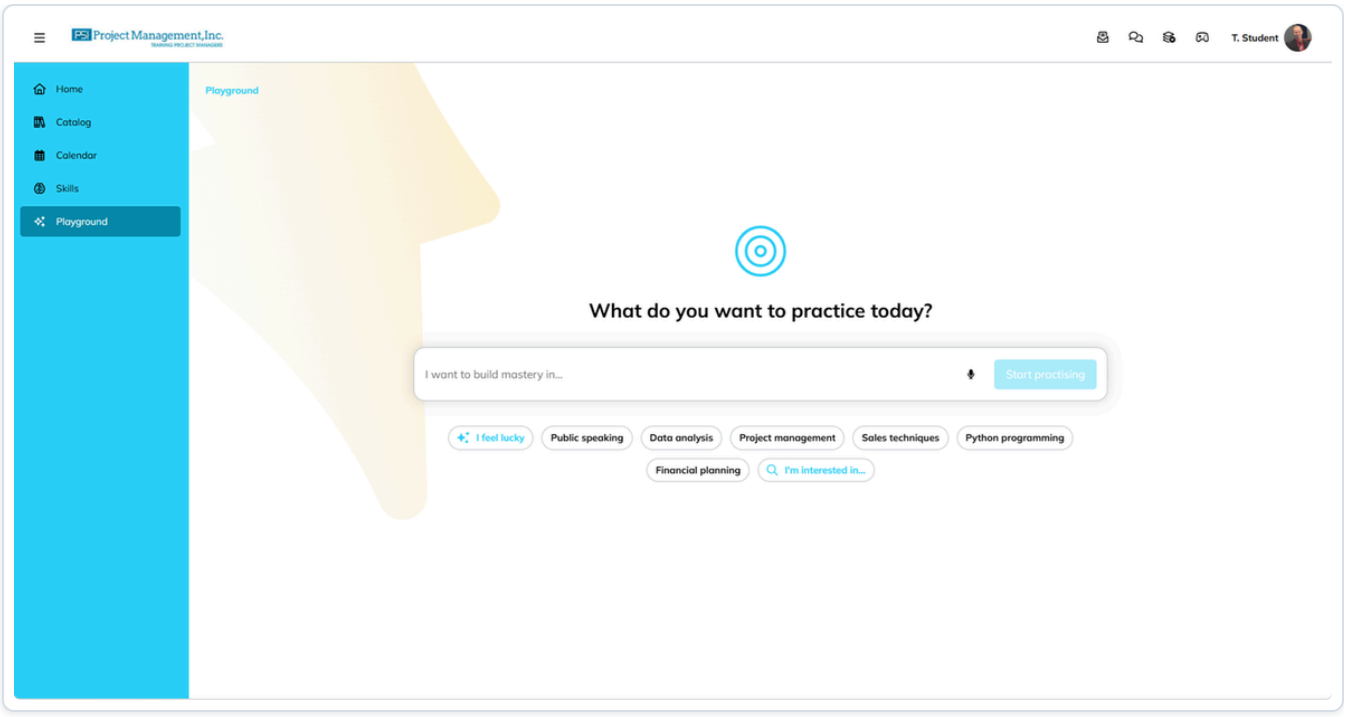

- **Depth selector** —Simple, Mastery, or Tailored — controls how deep the mini-course goes.
- **Suggested topics** —Quick-start chips if you’re not sure what to type.
- **Start learning** —Generates your mini-course.

23 Practice Mode

DO THIS Type what you want to build mastery in, then select Start practising.

Practice Mode gives you a continuous, adaptive stream of practice questions on whatever you type in — for example, a CAPM® domain like Agile Frameworks or a specific concept like risk registers. The questions adjust to your level of understanding in real time.

It’s a flexible complement to the lesson quizzes and practice exams — use it for quick, low-stakes repetition on a topic you want to strengthen.

Practice Mode: type a topic and start an adaptive practice stream.

WHAT TO LOOK FOR

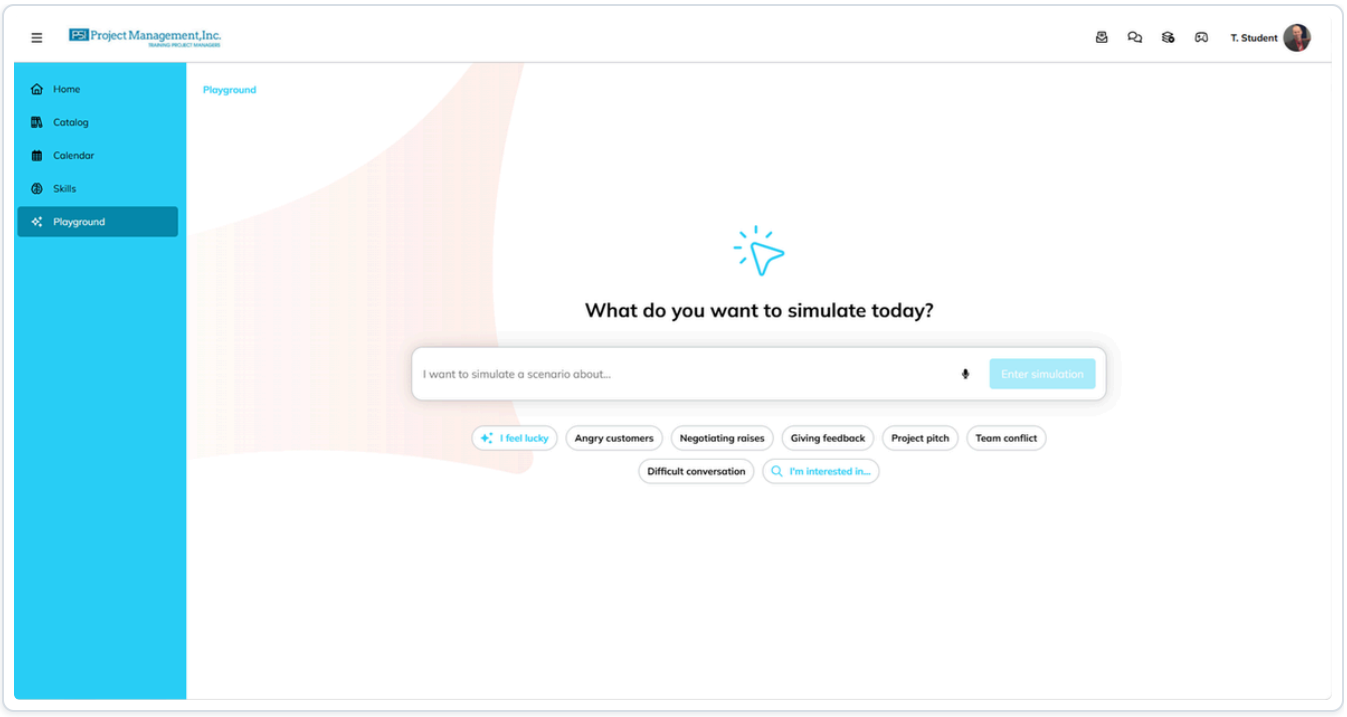

- **"I want to build mastery in..."** —Type any topic or skill to practice.
- **Start practising** —Begins your adaptive question stream.

24 Simulation Mode

DO THIS Describe a scenario to simulate, then select Enter simulation.

Simulation Mode drops you into an evolving, decision-based scenario — useful for practicing the situational judgment CAPM® scenario questions often test. Describe a scenario (or pick a suggested one like "Team conflict" or "Project pitch"), and your choices shape how it unfolds.

This is a good way to build intuition for the "what should the project team member do next" style of question you'll see throughout the exam.

Simulation Mode: describe a scenario and enter the simulation.

WHAT TO LOOK FOR

- **"I want to simulate a scenario about..."** —Describe any workplace or project scenario.
- **Enter simulation** —Begins the interactive scenario.

TIP The Skills area (also in the left menu) tracks related growth over time — worth a look alongside the Playground.

SECTION 09 SUPPORT

Messages and support

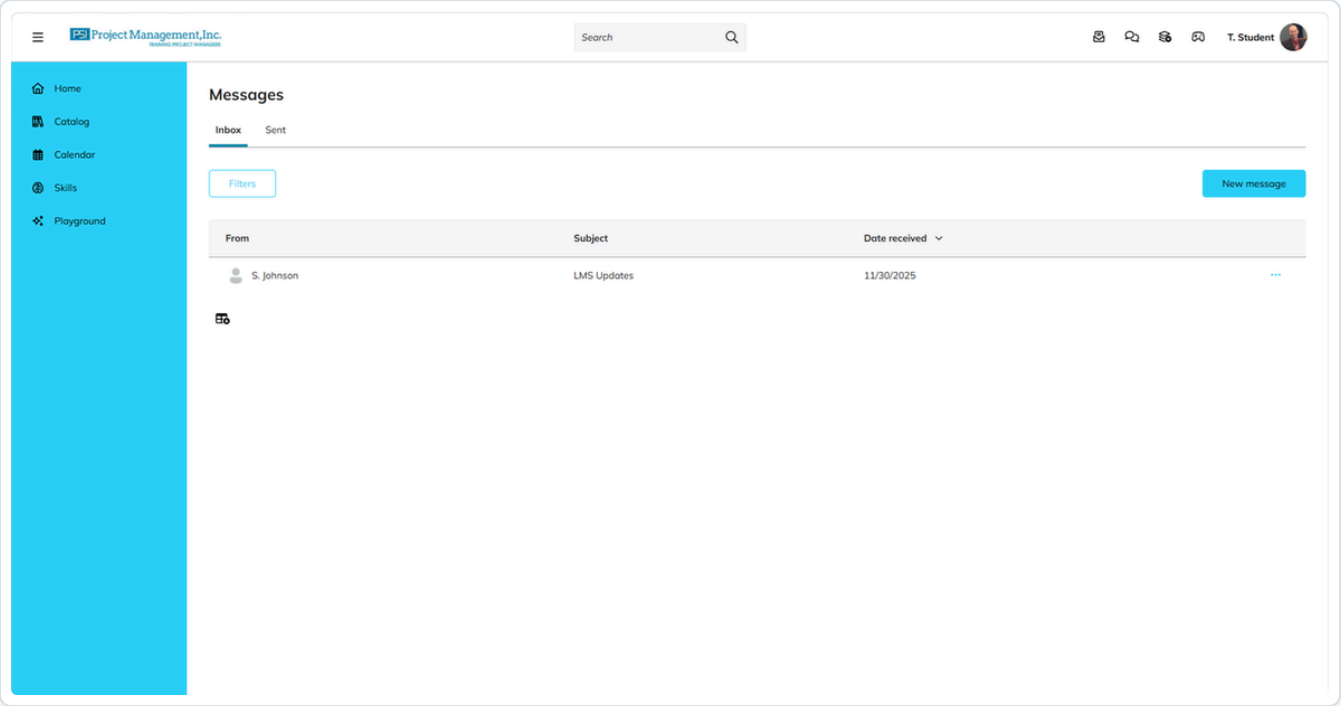

How to reach your instructor and manage your account inside the LMS.

25 Your message inbox

DO THIS Select the inbox icon at the top right to read your messages.

The LMS has its own messaging. The inbox icon in the top-right corner opens your Messages, with Inbox and Sent tabs. This is where course announcements land — for example, an “LMS Updates” note from your instructor.

Use Filters to narrow a long list, and New message to start one.

The Messages inbox, with Inbox and Sent tabs.

WHAT TO LOOK FOR

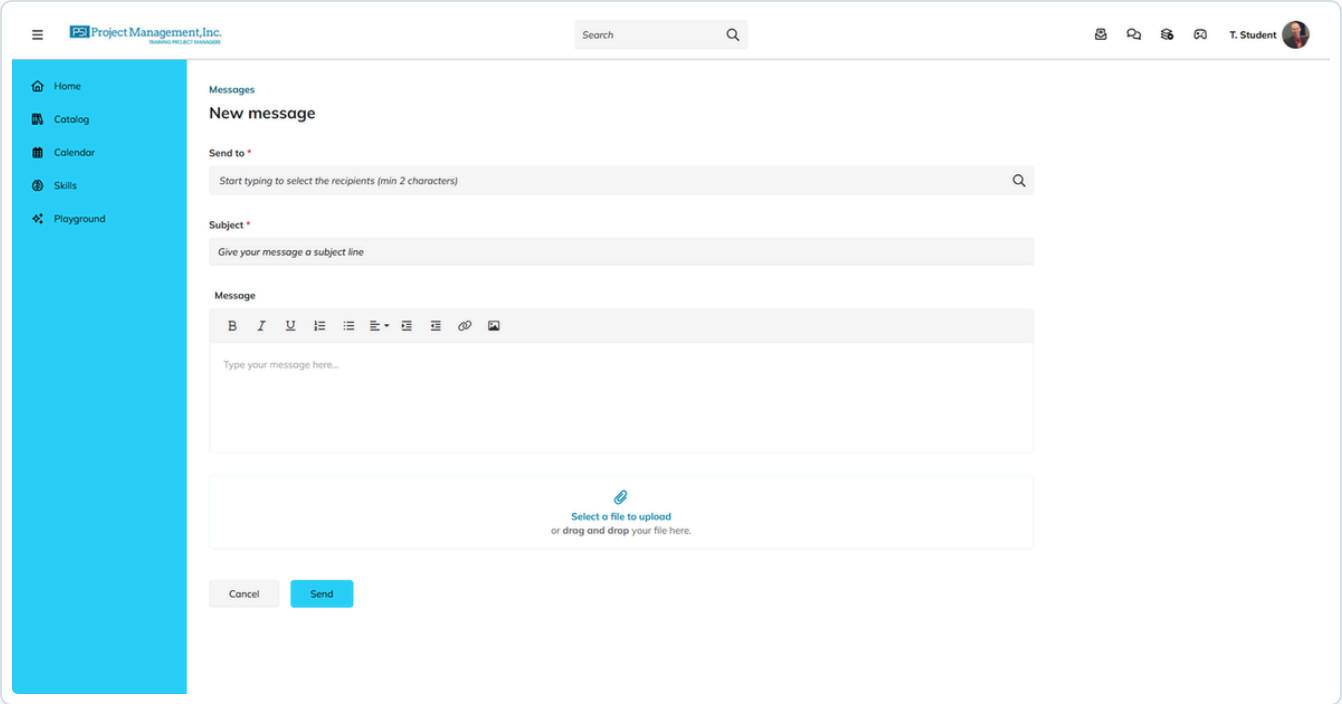

- **Inbox / Sent tabs** —Messages you’ve received, and ones you’ve sent.
- **New message** —Starts a new message.
- **Filters** —Narrows down a busy inbox.

26 Sending a message

DO THIS Select New message, choose a recipient, add a subject, write, and send.

Selecting New message opens a simple form. Start typing in “Send to” to find your recipient (such as your instructor), add a Subject, and write your message in the editor — which supports bold text, lists, and links.

You can also attach a file by selecting it or dragging it into the upload area. This is the easiest way to ask a question or reach PSIPM from inside the LMS.

The New message form: recipient, subject, editor, and file upload.

WHAT TO LOOK FOR

- **Send to** —Start typing to find a recipient.
- **Subject** —A short summary of your message.
- **Attach a file** —Drag and drop, or select a file to upload.

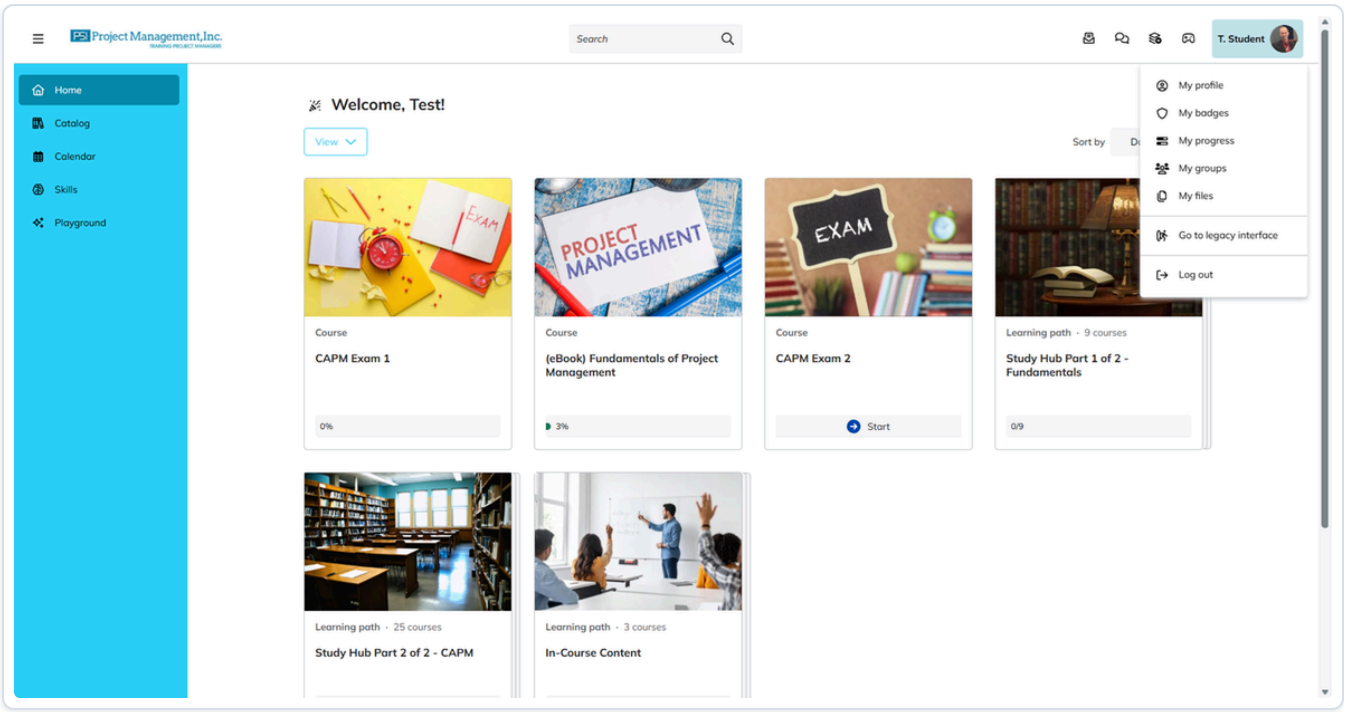

TIP Include your course name and the lesson or question number when you write in — it helps your instructor answer faster.

27 Your profile menu

DO THIS Select your name and picture at the top right to see your account options.

Your profile menu holds everything related to your account: My profile, My badges, My progress, My groups, My files (see Section 3), “Go to legacy interface” for the older LMS view, and Log out.

My progress is a useful one-stop check of your standing across every course; My badges shows anything you’ve earned along the way.

The profile menu: My profile, My badges, My progress, My groups, My files, and more.

WHAT TO LOOK FOR

- **My progress** —A summary of your standing across every course.
- **My files** —All your downloadable PDFs in one place (see Section 3).
- **Go to legacy interface** —Switches to the older version of the LMS, if you ever prefer it.

REFERENCE

Quick reference

A one-page cheat sheet for the menus, buttons, joining class, and how you'll know you're finished.

The left menu

Home	Your dashboard of added courses.
Catalog (library)	Browse and add CAPM® materials.
Calendar	Your calendar of course-related dates.
Skills	Tracks skill growth over time, alongside the Playground.
Playground	The AI-powered Learning Playground — see Section 8.

The top-right icons

Inbox	Your messages and announcements.
Discussions	Course discussion, where available.
Branch switcher (stacked layers)	Lists only the branches assigned to you — keep this on capm.
Playground shortcut	A quick jump to the Learning Playground.
Your profile	Account settings — see Section 9.

Buttons you'll use

Start course / Start learning	Begins a course, or a Learning Playground session, you haven't opened yet.
Resume course / Resume path	Picks up a course or learning path where you left off.
Next / Prev	Moves between lessons, slides, or Study Hub parts.
Complete unit	Marks the current unit finished so your progress updates.
Start test	Begins a quiz or practice exam.
Submit	Locks in your answer on an exam question and advances.
Try again	Retakes a quiz you didn't pass.
Skip	Moves past a unit where skipping is allowed (a gated quiz must be passed instead).
Download	Saves a PDF or file to your device.

Joining your live class

Your live sessions run on **Zoom or Teams**. Use the meeting link in your welcome email to join each class. Before your first session, read this handbook and watch the short TalentLMS student orientation (also linked in your welcome email).

If a quiz or exam won't submit

If a quiz or exam won't let you submit or advance but the timer keeps running, click your browser's **refresh** button. It won't reset your attempt — you'll continue right where you left off. This is an occasional TalentLMS quirk, not a problem with your work.

Progress & finishing the course

Every course and learning path has a progress bar that fills as you complete units — you'll often see the note "All units must be completed." This program does not issue a certificate, so there's no final download to collect. Instead, **your finish line is a full set of progress bars at 100%** across your workbook, In-Course Content quizzes, both Study Hub parts, the eBook, and both practice exams.

Need a hand? The fastest way to reach your instructor is right inside the LMS — open Messages (the inbox icon, top right) and select New message. Your access lasts 12 months from purchase. Good luck with your studies, and welcome aboard.
